

# Weber State University - Shop Safety Module

Name \_\_\_\_\_ Date \_\_\_\_\_ Score \_\_\_\_\_

### Objectives:

After completing this module you will be able to:

- Locate the safety equipment in each shop / lab areas.
- Operate each type of equipment in the shops / lab areas.

### Module Importance:

This module will provide you with the understanding that: Shop safety is the most important element of your working life, you can't work if you are hurt. This module will help you understand and insure that your training/work experience will be safe and rewarding.

Safety Glasses

Emergency Exit (Outdoors)

Fire Extinguisher

First Aid Supplies

Exhaust Removal System

Fire Alarm Pull Handle

Emergency Shower and Eye Wash

## Shop Safety

- 1 Read the descriptions and locations of the safety related items available at the Weber State University automotive service shops
- 2 Locate each item and identify the number code on them.
- 3 Write the number code you find on the safety item next to the appropriate name on the worksheet.
- 4 See your instructor for evaluation and signoff.

**Note:** Most items are in more than one location in each shop, so be sure to identify all locations TE-215, TE-216, TE-217, TE-218, and TE-219. See your instructor for a demonstration on operation and use of vehicle lift and other equipment.
