

Fast Track Math

Did you place into Developmental Math, but you thought you knew this stuff? Fast Track is the option for you! It is available in every TERM course.

Each course is divided into 10 modules that begin with an optional Fast Track quiz. If you score at least 80% on a Fast Track quiz, you do not have to do the homework or final quiz for that module. You may go directly to the next module's Fast Track or homework.

Taking a Fast Track is risk free! If you don't pass the quiz at 80% you just go into the homework for that module. The Fast Track quiz score does not affect your grade.

Fast Track Facts:

- Fast Tracks are 10 – 15 questions long.
- The Fast Track quizzes must be taken in the Hub.
- A score of at least 80% is needed to pass (one attempt only).
- Fast Track results are **never** included in the final grade.
- A Fast Track can be taken even if you have started the homework for that module.
- Fast Tracks are only available prior to the Module's Quiz due date.
