The most important reform measure is one that helps us to create partnerships that have the capacity to fund projects in communities that are good for the health of the community.

This is a response to the March 1 article “For Top of Utah phones, it’s all about you—o-o-o-o-o-o-o-o-o-o.” We will all be "in the dark" about the actual situation of this crisis. Why is it that we would like to know about the outcomes of this process? Is it about the unknowned consequences of this crisis? If so, we would like to know what will be the outcome of this crisis? Is there a similar crisis that has occurred in Utah? Why does this crisis qualify as a crisis? The reason is that the crisis is currently gaining momentum.

We share 96.8 percent of DNA with chimpanzees. This is a very close relationship. It is surprising to see that the chimpanzees and humans share 98.6 percent of DNA.
