WSU'S Workers Compensation Insurance

Weber State University is committed to providing a safe and healthy environment for all our faculty, staff, students, and visitors. However, accidents *do* occur.

To cover work-related injuries, WSU provides workers compensation insurance for all paid employees and authorized volunteers.

Injured Worker Benefits

WSU provides employees with the following medical insurance coverage for on-the-job injuries:

- 100% of the medical treatment
- Compensation for lost wages
- Permanent impairment benefits
- Rehabilitation benefits
- Survivor benefits

Environmental Health & Safety

Workers Compensation Insurance

What to do if you experience
a work-related injury

Re-issued January 2008

Step 1: Obtain medical attention

WSU has contracted with preferred health care providers for workplace injuries. Using their services helps you obtain the right kind of care, and avoids complicating the claims process.

Daytime treatment of non-emergency injury

Monday through Friday, 7:30 a.m. to 5:30 p.m.

Ogden: IHC WorkMed, 1355 West 3400 South, Telephone (801) 387-6150

Layton: IHC WorkMed, 1992 W 2000 N. Suite 2B, Telephone (801) 776-4444

Although an appointment is not necessary at WorkMed, you may wish to call ahead to ask how many people are waiting to see the doctor.

After hours treatment of non-emergency injury

Evenings & weekends

Ogden: McKay-Dee Hospital emergency room, 4401 Harrison, Telephone 387-7002.

Although an appointment is not necessary at an emergency room, you may wish to call ahead and notify them of the type of injury to expect.

Outside Ogden: Nearest hospital emergency room

Anytime treatment of serious injury or blood exposure

Anywhere: Nearest hospital emergency room.

Anytime follow up treatment of a low risk or medium risk exposure

Obtain blood exposure follow up treatment &/or counseling:

After initial triage at a hospital (if exposure is determined to be low or medium risk):

Go to IHC WorkMed-Ogden, 1355 West 3400, South, Telephone (801) 387-6150

Step 2: Report your injury

Report your injury *within 24 hours of injury* to:

(1) your supervisor,

(2) WSU's workers compensation insurance coordinator: (801) 626-8004.

The sooner you report your injury, the sooner our insurer can begin processing your claim.

Step 3: Correct unsafe conditions

Correcting unsafe conditions which contributed to an accident can prevent serious accidents or injuries for someone else.

Your supervisor should be able to help you correct an unsafe condition. If you need further assistance, contact our Occupational Safety Specialist at extension 7077.

Step 4: Return to work

Your supervisor will assist you in your safe return to duty.

If indicated by your physician, alternative, productive work will be provided for you which will allow you to return you to the workplace to perform meaningful, safe, and productive tasks.

The duties you will be asked to perform will conform to the physician's stated restrictions.
