

## Written Student and Mentor Report

### Student Report - In 1 or 2 pages identify:

- the overall success of your project, did it go as planned, why or why not
- the most significant outcomes of this undergraduate research project in terms of your academic and/or professional growth
- how you have or will publicly share the results of this project (i.e., the date and audience for an oral presentation, anticipated time line for submitting a written article for publication, etc)

*NOTE: you are encouraged to present at the WSU Annual Undergraduate Research Symposium held each spring.*

- your advice for other students who wish to complete an undergraduate research project
- your overall reaction to receiving the undergraduate research funds

### Faculty Mentor Report - In 1 or 2 pages identify:

- the role you played in this undergraduate research project
- the impact this project had on your student(s) academic and/or professional growth
- any words of advice for faculty who wish to mentor undergraduate research projects
- your overall reaction to the availability of undergraduate research funds
