Weber State University  
2009 NASPA Assessment Consortium  
Campus Safety/Student Conduct Benchmarking Survey

The Campus Safety/Student Conduct student assessment covers the following topics: perceptions and experiences regarding safety on campus and awareness of student conduct policies. A separate section of the survey focused on the judicial affairs process; however, no students reported having gone through this process. The survey was administered 01/20/2009 - 02/04/2009. 330 students responded to the survey for a 5% error margin at a 95% confidence level.

**Campus Safety**
- 97% of students feel safe walking alone on-campus during daylight hours
- 58% of students feel safe walking alone at night
- 23% of students say that their parents are concerned about their safety on campus
- 91% of students are aware of the emergency phones on campus
- Less than 1% of students have used an emergency phone within the past 12 months
- 82% of students are aware of the Code Purple system
- 74% of students feel that there is adequate lighting on campus
- 46% of students feel that there is an adequate campus police presence on-campus
- 39% of students do not know who to call if they see suspicious activity on campus
- Half of WSU students are not aware of the formal security policies and procedures in place on-campus

- 77% of students feel that their own safety and security is up to them
- 15% of students have possessed or know someone who has possessed a gun on campus

**Student Conduct**
- 38% of students do not know where to find the Code of Conduct
- 27% of students do not know if we have a Code of Conduct
- 54% of students do not know the steps in the hearing/student conduct process
- 85% of students have never cheated on a paper, exam, or assignment
- 52% of students do not know how to report cheating
- 31% of students are not likely to report cheating in the future
- 93% of students say that cheating is not acceptable in any circumstances

**Overall, 96% of students feel safe at Weber State University.**
