Audit = good government

In today's era of government's spending too much and public debt rising in alarming numbers, a few government agencies are welcome. An example of good government is Utah's Division of Rehabilitation Services that discovered the state could save up to $612,000 a year with better due diligence and practices.

In a state budget that entails far more than $612,000, proper fiscal rehabilitation services to those with disabilities which prevent them from having meaningful employment.

In a state budget that entails far more than $612,000, proper fiscal rehabilitation services to those with disabilities which prevent them from having meaningful employment.
