The following list highlights significant accomplishments by the Jerry and Vickie Moyes College of Education over the past few years. Accomplishments that, though worth mentioning, do not supersede the overall accomplishment and value of faculty and staff in providing outstanding support, advising, and instruction for the students who choose majors, minors, or support course-work from within our college or, who are involved in on-going activities associated with the college such as the Melba S. Lehner Children’s School, the WSU Charter Academy, Care about Childcare, the Storytelling Festival, the Families Alive Conference, CAPES, and many others. The associate dean, department chairs, faculty and staff and in some cases excellent colleagues from across campus, have all been instrumental in the success of all these activities and achievements.

• Full accreditation was received for the undergraduate and graduate programs in Athletic Training by the Commission on Accreditation of Athletic Training Education (CAATE).
• Full accreditation was received by the Teacher Education program by the Council for the Accreditation of Educator Preparation (CAEP).
• Nine college programs underwent university program review and were approved.
• Substantial and sustained growth in the Heath Promotion and Human Performance Department led to a department restructure resulting in the current two departments: Health Promotion and Human Performance (HPHP), and Athletic Training and Nutrition (ATN).
• Remodeling of the old south side ticket area netted a new advisement office for ATN and a new advisor for the ATN department was hired.
• The ATN department is also supported by a new department secretary.
• The approval of two new baccalaureate degrees, one in HPHP - Outdoor and Community Recreation Education (BS), and in ATN - Nutrition Education (BS).
• The addition of a new recreation faculty member in the ATN department.
• Developed the idea and schedule for program 1, 2, 3 plans which in essence allows each program area to share information about their current academic program as well as the projected goals and resource needs 1, 2 and 3 years into the future, in a concise format that can be updated yearly.
• Remodel of a racquet ball court in the Stromberg Complex to add to and enhance the Human Performance Lab.
• Remodel of the bathrooms on the remaining three floors of the McKay building. One floor was done some time back.
• Developed a cutting edge foods lab at WSU Davis with a greenhouse and in conjunction with the Botany department.
• Migrated to digital signage (directories) in the McKay Building and The Stromberg Complex and added displays of our mission statement at both locations.
• Initial development and publishing of a College newsletter and two follow-up issues.
• Updated technology including expanding the Milestone system by adding 3 video cameras in basement, 30 new iMacs in the Mac lab, 150 new faculty and staff computers, 7 new digital multimedia teaching stations.
• Continued positive relationships with area school districts through such efforts as the Teacher Academy, the Prime grant and the GearUp/Soars partnership.
• Finished the Capital Campaign at 152.1 % of our college goal with over nine million in pledges.
• Although not counted in the current capital campaign we were also able to bring home the remaining two million of an earlier pledge that had been unrealized.
• Hosted a very successful statewide conference ‘Celebrating the Outstanding Teachers of Today and Ensuring Quality Teachers for Tomorrow’.
• Used endowment earnings to establish individual department endowments in an effort to encourage faculty and staff to contribute to their own areas.
• Kicked off a year-long effort to celebrate teachers and promote the teaching profession by recognizing five area teachers at the play the 25th Annual Putnam County Spelling Bee and three teachers at the WSU Montana State Football Game.
• Held our first re-purposed College of Education Advisory Board Meeting.
