

Maintenance and Light Repair Courses

The Ford Maintenance and Light Repair program is the source of entry-level automobile service technicians for Quality Care Service Centers, Quick Lanes, Ford and Lincoln Mercury service departments and Independent repair facilities. The objective of these training courses is to better equip a moderate volume of students with the skills and knowledge needed to perform maintenance and basic repairs on Ford, Lincoln, Mercury cars and light trucks as well as most other vehicles. These courses can be taken individually, or if all are completed then an official Ford MLR Certificate will be offered to those graduating students.

Fee and Registration

The fee for each class is **\$100.00** and is payable at the time of registration. All classes held in the Technical Education Building, Room 216. To register, complete the registration form and mail, phone, fax, or deliver with payment to:
