Bicycle Promotion in Ogden and West Africa

Thursday, September 30 at noon in the WSU Shepherd Union Building Atrium

Please join us to learn more about how you can work with local community groups and businesses to encourage cycling in Ogden and support a project to ship donated bikes to villagers and health care workers in Ghana and Togo, West Africa.

Weber State University, the Ogden Bicycle Cooperative, Ogden Youth Impact, the Village Bicycle Project, and local bicycle retailers are working together to promote bicycling as an essential means of transportation locally and globally. WSU geography and health science students will travel to Ghana next spring to work with community health practitioners and distribute bikes. The service-learning project links local communities with those in Ghana and Togo (West Africa) in an effort to provide foreign assistance and cross-cultural exchange.

We need your help!

Attend the presentation to learn more about the Fall Bike Drive and Bike-a-thon Fundraiser to be held at 10:00 am, Saturday, October 9. Come ride the WSU campus loop to help us raise money for the West Africa Bicycle Project.

For bike-a-thon registration and further information please contact Bryan Dorsey, WSU Prof. of Geography
