Are You An Unofficial Project Manager?

Have you quietly slipped into the role of an unofficial project manager? Stakeholders, scope creep, no formal training, a lack of process all combine to raise the probability of project failure costing you time, money, and employee morale.

Project management isn’t just about managing logistics and hoping the project team is ready to play to win. The skills of “informal authority” plus the PMI project management framework are keys to your project success.

WHAT: Project Management Essentials for the Unofficial Project Manager

WHEN: Wednesday & Friday, October 26th and 28th
12:00 – 4:00 pm (both days)

Register for course #300-46 in Training Tracker. Class size is limited to 15.

OWL is offering this course at WSU for the significant discount of $75.00/person. Taken as a public seminar the cost is $445.00.

When registering in Training Tracker the system will prompt you to enter a WSU cost code. A funds transfer will take place approximately 2 weeks before class as materials are ordered for participants.
