

April 13, 2007

**6 pm - 10 pm
Lind Lecture Hall
Weber State University Ogden Campus**

Circus of Physics

Physicists Adam Johnston and Colin Inglefield enchant and amaze with a host of physics demonstrations. It's not magic, it's physics!

6 pm, LL121

Black Holes

Astrophysicist Stacy Palen explores the most bizarre objects in the Universe!

7 pm, LL121

2007 First Annual Weber State Physics Open House

Join us for demonstrations and presentations by the physics department faculty and students, including:

The mysteries of Hot Chocolate - Lasers - Mars 3-D imagery - The X-ray fluorescence detector - the Nanoroom - kids' activities - Free Ott Planetarium shows - Star party - and more!

Everyone is welcome!
