Re: Five year program review meeting

October 1, 2012

Dear Dr. Amsel,

Thank you for presenting the results of your five year program review process to the Faculty Senate Executive committee last Thursday, September 27, 2012. The committee was appreciative of both your time and the extensive and thorough program review process you completed.

It is the committee's recommendation that the department move forward with the plans of action they have proposed in their "faculty response to program review" document. The committee members feel that the department plan is satisfactory. The committee chose to highlight the following:

- The exercise of developing a five year strategic plan is to be commended.

There is no request for additional written response from the department, nor additional efforts beyond the faculty response document. It is recommended that the department complete its next program review as scheduled, beginning in the fall semester of 2016.

In light of the upcoming 2014 accreditation visit by the Northwest Commission on Colleges and Universities (NWCCU) we would like to encourage the ongoing collection and analysis of assessment data with a focus on evidence-based planning by your department.

Again, thank you for your time and your support of this effort!

Regards,

Gail Niklason
