Psychology 3600: Statistics in Psychology Fall 2009 MWF 10:30 - 11:20 SS 378

Professor:	Dr. Aaron Ashley	Office:SS 360	
Email:	AaronAshley@weber.ed	Phone: (801) 626-8743	
Office Hou	rs: MWF: 9:00 – 10:00	TR: 10:30 – 11:30	

Required Website Access: In this course, you will use a textbook and Aplia's website (<u>http://www.aplia.com</u>). The aplia website will be where course announcements will be made, homework assignments will be submitted, quizzes will be taken, and grades will be posted. Aplia will provide you with two options for purchasing the required text.

Option 1: Digital Textbook with Aplia Access

• From Aplia: Purchase access to your course from Aplia's website for \$70.00 USD.

* *You will have access to your digital textbook up until the end of this course.* Option 2: Physical Textbook with Aplia Access (also includes digital textbook)

• From Aplia: Purchase access to your course for \$70.00 USD and a physical book for \$45.00 USD from Aplia's website.

- **Required Text**: Gravetter, F. J., & Wallnau, L. B. (2007). *Essentials of statistics for the behavioral sciences*, 6th ed. Belmont, CA: Wadsworth/Thomson Learning.
- **Supplemental Text:** Gravetter, F. J. (2007). Study *Guide for Gravetter and Wallnau's Essentials of statistics for the behavioral sciences*, 6th ed. Belmont, CA: Wadsworth/Thomson Learning.

Course Description and Goal: This course is an introduction to descriptive and inferential statistics with specific emphasis on the computation, application, interpretation, and presentation. In this course, you will gain an understanding of descriptive and inferential statistics with a strong emphasis on the theoretical aspects of statistical decision-making.

Grades: Your final course grade will come from your performance on homework assignments (500 points), seven exams (100 points each), a two-part comprehensive final (300 points), and class participation (50 points). Your final grade will be based on the percentage of total points obtained relative to the total number of points available. The following percentage-letter grade equivalents shall apply.

94-100	А	87-89	B+	77-79	C+	67-69	D+
90-92	A-	83-86	В	73-76	С	60-66	D
		80-82	B-	70-72	C-	0-59	Е

Homework: There will be weekly graded homework assignments during the semester. These assignments will help you better understand the course material and prepare you for the exams. Some of the assignments will ask you conceptual questions from the text, and some will require

you to analyze data using excel and SPSS and present your interpretation in an APA style results section. In addition to the graded

Exams: There will be seven exams and a two-part comprehensive final. The final will consist of both an in-class and take-home portion. Exams will be multiple choice, short answer, and computational.

Testing Center Hours: All exams will be taken in the Social Science Testing Center, located in the basement of the Social Science Building (SS 036). In order to take an exam, you must show up at the center on the correct day(s), during testing center hours, and with a picture ID. You will not be allowed to take the exam without a picture ID, or if you come after the hours specified. You will also need a calculator, #2 pencil, and 10¢ to purchase a scantron form.

Make-up Exams: As you will have a free class period in which to complete each exam make-up exams will be subject to a penalty of 10 points per day (including weekends and holidays). There are NO EXCEPTIONS to this policy!

Course Policies and Expectations:

Attendance: The student is responsible for all lecture materials and announcements made in class whether you are present or not. I do not take attendance on a daily basis. However, I believe that class attendance plays an integral part in learning the material, especially in statistics. Although there is tremendous overlap between the material in the text and that presented in class, class discussions and group activities help reinforce the learning of the material. Also, some exam items will tap only material presented in either class or in the text. Therefore, it is to your advantage to attend every class and to obtain class notes when circumstances do not permit. If you must miss class, it is suggested that you read the assigned materials and obtain the class notes from a classmate.

If you must miss class, **do not** contact me with questions about what was covered in class. At this point, you are to obtain the names, email addresses, and phone numbers of four of your class mates. These are the people that you should contact in case of a class absence. Only after contacting these individuals, obtaining class notes, and preparing the assigned materials are you to contact me. I'm happy to help you learn the material, but only after you have taken the time to prepare and review what you have missed.

Classroom Courtesy:

Cell phones/beepers/laptops: With the exception of your calculator, leave **all** electronic devices turned off during class. I do not want to see any cell phones or laptops out during the class period. You can text message and email your friends during the other twenty-two hours and ten minutes of the day, but not during this class. This behavior is not only rude, but is also extremely disruptive. A first warning is forgetfulness. A second warning (and subsequent warnings) will result in five points off your final total points for each occurrence.

Discriminatory Harassment: Weber State University is committed to providing an environment free from harassment and other forms of discrimination based upon race, color, ethnic background, national origin, religion, creed, age, lack of American citizenship, disability, status of veteran of the Vietnam era, sexual orientation or preference or gender, including sexual/gender harassment. Such an environment is a necessary part of a healthy learning and working atmosphere because such discrimination undermines the sense of human dignity and sense of belonging of all people in the environment. Thus, students in this class should practice professional deportment, and avoid treating others in a manner that is demeaning or derisive in any respect.

While diverse viewpoints and opinions are welcome in this class, in expressing them, we will practice mutual deference so important in the world of work. Thus, while I encourage you to share your opinions, when appropriate, you will be expected to do so in a manner that is respectful towards others, even when you disagree with them.

If you have questions regarding the university's policy against discrimination and harassment you may contact the university's AA/EO office (626-6239) or visit its website: <u>http://departments.weber.edu/aaeeo/</u>.

Academic dishonesty policy: Weber State University imposes specific disciplinary actions in response to incidents of academic misconduct (cheating, plagiarism, etc.). These actions may include admonition, failing grade, failure of course, disciplinary probation, suspension, and dismissal. The specified policies can be found in the WSU Student Code at http://documents.weber.edu/ppm/6-22.htm. Cheating will not be tolerated in this or any class at WSU. Any student caught cheating or plagiarizing on any assignment will result is a grade of E. It is your responsibility to understand what constitutes plagiarism, if you have any questions about what constitutes plagiarism ask. Ignorance of the law is no excuse.

Accommodation for Students with Disabilities:

Any student requiring accommodations or services due to a disability must contact Services for Students with Disabilities (SSD) in room 181 of the Student Service Center. SSD can also arrange to provide course materials (including this syllabus) in alternative formats if necessary.

Weber State University policies regarding Services for Students with Disabilities are available on the <u>http://weber.edu/ssd</u> website.

A note on grades: Statistics is a course that many students struggle with. It is expected that you will spend a substantial amount of time outside of class going through the material and working practice problems. If you expect to pass this course, you should be willing to spend an hour per day outside of class working practice problems and going through the material. If you would like to make an A in this course, then you should be willing to put in two hours per day outside of class. I would highly suggest forming a study group with 4-5 other students with whom you can discuss material and go through problems. Again, this course will require you to put in a substantial number of hours outside of the class room; simply coming to class and reading the book will not ensure a passing grade.

Monday Aug 24	Overview	Syllabus
Wadnasday Aug. 24	Intro to State	
Eridov Aug. 20	Intro to Stats	
Filuay Aug. 20		Ch 2
Monday Aug. 31	Frequency Distributions	Cn. 2
Wednesday Sept. 2		
Friday Sept. 4	Central Tendency	Ch. 3
Monday Sept. 7	NO CLASS	Labor Day Holiday
Wednesday Sept. 9	Variability	Ch. 4
Friday Sept. 11		
Monday Sept. 14	Z-Scores	Ch. 5
Wednesday Sept. 16	EXAM 1	
Friday Sept. 18	Probability	Ch. 6
Monday Sept. 21	Probability & Samples	Ch. 7
Wednesday Sept. 23	Hypothesis Testing	Ch. 8
Friday Sept. 25		
Monday Sept. 28	EXAM 2	
Wednesday Sept. 30	Introduction to the <i>t</i> Statistic	Ch. 9
Friday Oct. 2	Related Samples t Test	Ch. 11
Monday Oct. 5	Independent Samples t Test	Ch. 10
Wednesday Oct. 7		
Friday Oct. 9	Estimation	Chapter 12
Monday Oct. 12		
Wednesday Oct. 14	EXAM 3	
Friday Oct. 16	Introduction to ANOVA	Ch. 13
Monday Oct. 19		
Wednesday Oct. 21		
Friday Oct. 23		
Monday Oct. 26	EXAM 4	
Wednesday Oct. 28	Repeated Measures ANOVA	Ch. 14
Friday Oct. 30		
Monday Nov. 2	Two-Factor ANOVA	Ch. 14
Wednesday Nov. 4		

TENATIVE CLASS SCHEDULE AND ASSIGNMENTS

Friday Nov. 6		
Monday Nov. 9	EXAM 5	
Wednesday Nov. 11	Correlation & Regression	Ch. 15
Friday Nov. 13		
Monday Nov. 16		
Wednesday Nov. 18	EXAM 6	
Friday Nov. 20	Non-Parametric Test Statistics	Ch. 16
Monday Nov. 23		
Wednesday Nov. 25		
Friday Nov. 27	NO CLASS	Thanksgiving Break
Monday Nov. 30	EXAM 7	
Wednesday Dec. 2	Review	
Friday Dec. 4		
Wednesday Dec. 9	FINAL EXAM	Take-Home Due by 5:00

*Please remember, this schedule is tentative and subject to change at the Instructors discretion.

Student Registration and Payment Instructions

Course Name: Ashley, Behavioral Stats (Gravetter), Fall 2009 Start Date: 08/24/2009 Instructor: Aaron Ashley Course Key: RKW2-NKV2-QL2G

You can begin working on your homework as soon as you register!

- In this course, you will use a textbook and Aplia's website.
- In most cases, you can save money if you buy Aplia and your textbook together. See payment options below.
- You will have access to a digital version of your textbook using Aplia.

Registration

If you have <u>never</u> used Aplia before...

- 1. Connect to http://www.aplia.com.
- 2. Click the New Student link and enter your Course Key: **RKW2-NKV2-QL2G**. Continue following the instructions to complete your registration.

If you have used Aplia before...

- 1. Connect to http://www.aplia.com.
- Sign in with your usual e-mail address and password and enter your Course Key when prompted: RKW2-NKV2-QL2G. If you are not prompted for a new Course Key, click the Enter Course Key button to enroll in a new Aplia course. Enter your Course Key when you are prompted.

* You will have different payment options after you register for your course. If you choose to pay later, you can use Aplia without paying until 11:59 PM on 09/13/2009.

Payment

Option 1: Digital Textbook with Aplia Access

• From Aplia: Purchase access to your course from Aplia's website for \$70.00 USD.

Option 2: Physical Textbook with Aplia Access (also includes digital textbook)

- From Aplia: Purchase access to your course for \$70.00 USD and a physical book for \$45.00 USD from Aplia's website.
- * You will have access to your digital textbook up until the end of this course.
