

PROJECT INFORMATION SHEET

Title of Study: Emotional Response to Literature

Experiment Open Date: January 22, 2015

Experiment Close Date: April 21, 2015

(IRB) Approval Number: 2013-AD-34

Participation Credits: 10 credits

Time (duration): Approximately 2-2 ½ hours

Brief Description of Study:

If you agree to participate in this research study, you will take a paper-pencil test to assess your perspectives on characters in a movie. In addition, you will have different physiological characteristics recorded while you watch a movie. These include measuring facial movements with EMG (electromyography) recording, measuring skin conductivity with GSR (galvanic skin response) recording, and measuring heart rate. While these are being assessed, you will be asked to watch a movie, and this will take approximately 2 hours of your time. After you complete the movie, you will be asked to answer a few questions about that movie.

Participation Criteria

Students 18 and over who are **NOT pre-health professionals** and who are **NOT** working in a medical field may participate. *ANYONE over 18 who is not pre-med, pre-PA, or pre-nursing, and anyone who is NOT working in a medical field, may participate.*

Location

All research will be collected at Annex 2, which is a house at the corner of Birch St. and Edvalson Ave. It is located directly north of Elizabeth Hall and the A-2 parking lot. It is about a 5 minute walk from the Social Science building to Annex 2. A copy of a map showing the location of Annex 2 is attached.

Researchers:

Dr. Lauren Fowler (Psychology and Neuroscience Faculty)

Chase Brower (Neuroscience student)

Dustin Hardman (Neuroscience student)
