Ogden-Weber Tech College
Americorps VISTA team!**

VISTA is often called the “Domestic Peace Corps” with more than 1.2 million members actively serving all over the country. VISTA members receive a \$850 monthly stipend, personal health insurance, and a choice of a \$4,725 educational award or a \$1,200 bonus at the end of each year of service, up to 3 years. VISTAs must commit for at least one year of service.

The Ogden-Weber Tech College is now recruiting 4 full-time VISTA members to work on a landmark student retention study, side-by-side with the Weber State Psychology Department. You must commit to work 40 hours a week, and cannot be a full-time student. The project will begin the third week of August. We also offer great working conditions, a free UTA bus pass, work-related tuition waivers and other benefits. VISTA service is highly valued by graduate schools!
