Competition in the media entertainment industry is fierce, as major players vie for new customers with innovative products and services. In the middle of this highly dynamic space is DISH. As a Fortune 250 company, we make a difference in the lives of consumers by delivering the best content experience at an unbeatable value. Our vision is to recreate the landscape of information and entertainment to become the sole provider of voice, video and data.

In September of 2013 DISH Network purchased a controlling interest of DishOne and committed to help them become the most prominent door-to-door force in the country. This will create opportunities that NO other door-to-door company can. A complicated product like TV service is best sold in person and DishOne brings the ability to target and acquire the best customers for DISH. That combination insures that DishOne is, and remains, a crucial part of DISH’s overall corporate strategy.

**SALES SCENARIO**

You will play the role of a DishOne Sales Representative, who is making door-to-door sales calls in a residential area. You knock on a customer’s door and after a few questions you discover they are a DIRECTV customer. They also told you that they watch common channels (ESPN, National Geographic, HGTV) and have the Genie whole home DVR with service in 4 rooms. They say to you, “I’m really pressed for time, give me 3 or 4 compelling reasons why DISH is better than DIRECTV”. Research and be ready to present and defend your 3-4 reasons why DISH is a better choice for your customer than DIRECTV.
