

GENERAL EDUCATION PROVISIONS ACT (GEPA) POLICY

Purpose: The purpose of this policy is to comply with the requirements of the General Education Provisions Act (GEPA), Section 427, enacted as part of the Improving America's Schools Act of 1994 (Public Law (P.L.) 103-382).

Policy: WSU Charter Academy will identify steps to ensure access to federally assisted programs have been provided as specified in the General Education Provisions Act (GEPA), Section 427.

Section 427 requires each applicant for funds (other than an individual person) to include in its application a description of the steps the applicant proposes to take to ensure equitable access to, and participation in, its Federally-assisted program for students, teachers, and other program beneficiaries with special needs. This provision allows applicants discretion in developing the required description. The statute highlights six types of barriers that can impede equitable access or participation: gender, race, national origin, color, disability, or age. Based on local circumstances, the applicant should determine whether these or other barriers may prevent students, teachers, etc., from such access or participation in the Federally-funded project or activity. The description in the application of steps to be taken to overcome these barriers need not be lengthy; the application may provide a clear and succinct description of how the applicant plans to address those barriers that are applicable to their circumstances. In addition, the information may be provided in a single narrative, or, if appropriate, may be discussed in connection with related topics in the application.

Section 427 is not intended to duplicate the requirements of civil rights statutes, but rather to ensure that, in designing their projects, applicants for Federal funds address equity concerns that may affect the ability of certain potential beneficiaries to fully participate in the project and to achieve to high standards. Consistent with program requirements and its approved application, an applicant may use the Federal funds awarded to it eliminate barriers it identifies.
