CALL FOR WEB DEVELOPMENT INTERNS

As changing times call for more digital engagement, we need to update our website and online activities to optimize CX as well as how we run our business. We're seeking a few outstanding computer science interns to help us navigate our pivot.

o   **SEO** – We need help cleaning up our website and making sure that people can find us. Is that you?

o   **Web Developer** – Love Wordpress and a challenge? We're looking for you.

o   **UI/UX** – Changing models mean a new user experience. Help us evolve ours.

o   **Technical Writer (API)** – Non-profit systems are clunky and don't play well with others. We need someone to help ours talk to Wordpress and Mailchimp.

Internship details: Flexible schedule, limited paid slots available, member museum perks.
Teams encouraged to apply.

About The Leonardo

We are a non-profit with a mission to fuse science, tech, and art in experiences that inspire creativity and innovation in people of all ages and backgrounds. We are inspired by Leonardo da Vinci's curiosity and interdisciplinary impact, so much so, that we created a space where experiences of STEAM intersect and activate our visitor's imaginations. We hope to spark creativity in our community for a future of innovation.

To Apply: send a cover letter, resume, and up to three references to HR@TheLeonardo.org.
