

Core Areas	Outcomes
<p>Connection</p> <p><i>How Honors students engage with peers, faculty, the Weber community, and society</i></p>	<p>Outcome 1.1: Collaboration</p> <p>Students collaborate effectively and respectfully with peers, faculty, and mentors, contributing constructively to shared learning experiences and academic communities.</p> <p>Outcome 1.2: Community Engagement & Service</p> <p>Students engage with the Weber community and broader local or global communities through service, partnerships, or applied learning experiences, recognizing their education as preparation for meaningful contribution to society.</p> <p>Outcome 1.3: Communication for Shared Purposes</p> <p>Students communicate ideas clearly and compellingly to diverse audiences and connect their academic work to community, civic, or public contexts.</p> <p>Outcome 1.4: Civil Discourse & Dialogue</p> <p>Students engage in discussion-based learning by listening actively, articulating ideas thoughtfully, and engaging constructively with differing perspectives in academic and community settings.</p>
<p>Inquiry</p> <p><i>How Honors students engage with questions, ideas, and complexity</i></p>	<p>Outcome 2.1: Curiosity & Questioning</p> <p>Students actively pursue questions, ideas, and experiences with curiosity, openness, and initiative, engaging thoughtfully with complexity and uncertainty.</p> <p>Outcome 2.2: Critical Thinking & Creative Problem Solving</p> <p>Students evaluate ideas, arguments, and evidence from multiple perspectives and engage critically and creatively with complex issues, problems, and systems.</p> <p>Outcome 2.3: Interdisciplinary Inquiry</p> <p>Students draw upon and integrate ideas, methods, and perspectives from multiple disciplines to explore complex questions and deepen understanding.</p>
<p>Growth</p>	<p>Outcome 3.1: Reflection & Self-Awareness</p>

How Honors students develop as learners and individuals over time

Students reflect on their learning experiences to better understand their strengths, challenges, interests, and development as learners.

Outcome 3.2: Adaptability & Resilience

Students respond constructively to challenge, feedback, and critique by revising their thinking, work, or approach to learning.

Outcome 3.3: Lifelong Learning & Exploration

Students develop habits of learning that extend beyond individual courses by exploring new ideas, experiences, and opportunities for personal and academic growth.
