

Online Providers & Discounts:

Opticare Vision Services allows members to take advantages of deals they may find online with their Out of Network benefits, at approved providers. Members may call customer service for details on approved providers. The approved providers listed below are subject to change. The establishment must still qualify as “Identified Provider” by Opticare’s policies. The member may also take advantage of discounts without losing their Out of Network benefits. For promos of BOGO, however, the receipt must show full purchase of at least 1 pair. Customer Service may be contacted for details.
