Educator coaching is an evidence-based strategy to increase program quality and teacher effectiveness in early childhood/early childhood education classrooms, programs, and home delivery systems. This course will train EC/ECE coaches using material from research-based sources and program experiences. Participants will learn recommended practices in coaching related to early childhood and develop a systematic, individualized approach to effective coaching. Participants will learn practical strategies for coaching early childhood staff of diverse backgrounds and varying adult learning styles. Materials and discussions will include interpersonal communication skills and a systematic approach to more intentional coaching. Students will apply these strategies to Case Studies and field work experiences throughout the course and will participate in hands-on activities in class to apply new skills. Coaching skills will apply to any EC/ECE curriculum or model. This is course 1 in a three course series for the Utah Coaching Credential. • Class will meet the following days: September 12, October 3, October 24, November 7, November 21, and December 5.							
CHF 22309	4300	3	Latino Child and Family Devel <a href="#">Full Semester</a>	TBA	TBA	OL	Schvaneveldt,
The Latino Child and Family Development course is designed as an upper division course for those who will work with, advocate for, or interact with children and families from a Latino background. The course uses a cultural constructivist approach to understand Latino children and their families. The central focus includes the study of Latino culture, parenting practices, couple and marital practices, and other family dynamics.							

Additionally, a major goal is to understand and deconstruct stereotypes associated with individuals within the Latino culture. The course will simultaneously focus on Latinos living within the United States as well as cultural groups throughout North America, South America, and the Caribbean.

This course emphasizes teamwork in small groups on a substantial software engineering project that will be performed for a real customer in the community. It is the intent of the course to provide a capstone experience that integrates the material contained in the CS curriculum through work on a software project that applies this material. Projects are chosen so as to provide an interdisciplinary service learning component with project proposals being solicited from the community at large. Projects that integrate students and faculty from other disciplines are also encouraged. Lectures will be directed towards the software development lifecycle, requirements gathering and design documentation, as well as software project management. Each team member will contribute to all phases of the project as well as the development of a project prototype. • Course Fee \$30.00. CEL stands for Community Engaged Learning which means that students engage in meaningful community engagement that is connected to specific course objectives. See <http://www.weber.edu/ccel/cel-designation.html> for a full list of CEL designated courses.

EDUC 3270 23229	3	Differentiation for Inclu A <a href="#">Full Semester</a>	0830 - 1110	F	ED325	Mayhew , Jack
The Individuals with Disabilities Education Improvement Act of 2004 (IDEA-04) mandates that students with disabilities be educated "to the maximum extent appropriate with children who are not disabled." The expectation is that students with disabilities will have access to, and make adequate progress in, the general curriculum. Therefore, it is essential for general educators and special educators to work collaboratively. This course is designed to provide preservice teachers with the knowledge and skills of effective inclusive teaching practices.

ENGL 3030 22077	3	Structure of English <a href="#">Full Semester</a>	1030 - 1120	MWF	EH220	LeTourneau,
<p>English 3030 presents the major parts of speech, grammatical functions, and constructions of Standard English. Its purpose is to show that English, like any human language, is an intricate and rule-governed system. To this end, it draws on the terminology of traditional grammar and the analytical techniques of structural and transformational grammar, including contextual definitions and tree diagramming. The course is directed toward departmental English majors, teaching majors, advanced ESL students, and students majoring in foreign language teaching.</p>						
ENGL 3040 22080	3	History of English Language <a href="#">Full Semester</a>	1200 - 1315	TR	EH203	McKay, Susan
<p>This course begins by introducing the elementary vocabulary and concepts of linguistic theory as these pertain to historical linguistics. It then traces the prehistory of English from its beginnings in Indo-European, through its place in the Germanic branch, to its historical phases of Old, Middle, and Early Modern English. Attention may also be given to national varieties of English and the development of English as a world language.</p>						
ENGL 3050 22083	3	Grammar/Style/Usage in Adv <a href="#">Full Semester</a>	0900 - 1015	TR	EH316	Conrad,
<p>English 3050 presents the concepts and nomenclature of traditional grammar as a context for students wishing to increase their control of punctuation, style, and usage in order to become more proficient writers. Its purpose is to offer practical guidance in how grammatical concepts can be applied to revising and editing one's own or others' writing to more effectively express one's intended meaning. The course is offered to all English majors and minors as a means of fulfilling the language requirement for the major, especially those in technical writing, as well as students in communication, pre-law, and criminal justice.</p>

This class is hybrid orientation -- has an online component along with face to face sessions.

ENGL 4620 3  
22199

This historical survey runs from just before the middle of the sixteenth century to just after the middle of the seventeenth -- roughly from the reign of Henry VIII, through the reign of Elizabeth Tudor, to the restoration of Charles II. Some of the more recognizable figures of this study are Christopher Marlowe, John Donne, Ben Jonson, John Milton, Anne Askew, Aemilia Lanyer, Mary Wroth, and Robert Herrick. (Note: this survey does not typically try to do justice to its largest figure, Shakespeare -- for whom the department has established English 4730: Shakespeare's Tragedies, Comedies & Histories).

ENGL 4630 3  
22200

This class has an online component along with face to face sessions.

ENGL 4640 3  
22201

This historical survey follows the long span of Queen Victoria's life: from about 1837 when she came to the throne to 1901 when her funeral widely symbolized the passing of the age. Not merely a placid time of Victorian propriety, this era was marked by such philosophical upheavals as that which followed Darwin's *Origin of Species*. Some of the notable writers are Elizabeth Gaskell, George Eliot, Lord Alfred Tennyson, Robert Browning, Emily Brontë, Charles Dickens, Matthew Arnold, and Thomas Carlyle. This era is marked by the Industrial Revolution, Utilitarianism (Mill), the rise of science and evolution theory (Darwin), socialism (Marx and Engels); Psychology (Freud), resurgence of art (the Pre-Raphaelites), and imperialism (Kipling). Notable

writers include: Carlyle, Tennyson, the Brownings, Arnold, Wilde, Dickens, the Brontes, Eliot, and Hardy.

ENGL 4660 22202	3	British Lit:Contemporary <a href="#">Full Semester</a>	1030 - 1145	TR	EH403	Eisley, Judy
This historical survey examines British and Anglo-Irish literature since 1950 as Britain metamorphoses from world power to an integral member of the European Community. The course asks what it means to be a "British" writer in the second half of a century increasingly multicultural in outlook. Possible focuses include post-war disillusion (William Golding); Absurdism and Postmodernism (Samuel Beckett, Tom Stoppard); neo-Romanticism (Ted Hughes, Seamus Heaney, Nuala Ni Dhomhnaill); experimentalism and magic realism (Doris Lessing, Salman Rushdie, Angela Carter); innovative historical fiction (John Fowles, A.S. Byatt); and legacies of Empire in a postcolonial world (Jean Rhys, V.S. Naipaul, Kazuo Ishiguro, Anita Desai).

ENTR 1002 3 Intro to Entrepreneurship 0730 - 0845 TR WB106 Noack, Dave  
22697 [Full Semester](#)

This course will present a broad overview of entrepreneurship and teach students how to identify and create valuable entrepreneurial opportunities. This is accomplished via proven process and theory designed to help ideation become customer needs driven instead of based on the instincts of the entrepreneur. Students will create, test and update a business model based entirely upon customer feedback and customer development methodologies as described in Business Model Generation and Startup Owners Manual textbooks. This class will also have students spending time 'out of the classroom' – learning about what customers want and will pay for through in-person prototype testing, iteration and feedback.

ENTR 1004 3 Entrepreneurial Finance 1730 - 2030 W WB106 Noack, Dave  
22698 [Block 1](#)

This course presents traditional and non-traditional financing techniques appropriate for the entrepreneurial business start up. Students will explore the application of corporate finance tools to new venture and private equity transactions including forecast simulations and the application of real options. The course will view finance from the entrepreneur, lender and investor's perspectives. By the end of the course students will be able to evaluate and apply a range of financial techniques for business start up purposes. • This class is being taught in a hybrid format. Check your eWeber student email often for instructions from the professor. To access course materials please log in to your eWeber portal and select the Canvas icon.

ENTR 2001 3 Sales and Marketing 1730 - 2030 W WB106 Stoddard,  
22699 [Block 2](#)

This course takes students who have successfully identified a start-up and teaches them the process of customer development, product development, business models and selling ideas to investors and customers. This includes examining a range of marketing techniques that are available for low to no cost. This course will look at alternatives to these traditional methods and students will, through hands on efforts, test these methods with real customers. By the end of the course students will be able to analyze business ideas for commercial viability. • This class is being taught in a hybrid format. Check your eWeber student email often for instructions from the professor. To access course materials please log in to your eWeber portal and select the Canvas icon.

ENTR 3002 3 Starting the Business 1330 - 1610 W WB106 Lawrence,  
22702 [Full Semester](#)

The aim of this course is for students to develop a business model that they will validate and iterate via paying and participating customers including managing budgets and spending plans designed to launch a business using actual dollars. Student teams will present their company at the beginning of the course as teams and will then use student start-up funds to launch their business. By the end of the course students will have launched a real start up business.

Presents a general overview of the characteristics and variant topography, geography, and climatic conditions of the Earth's arid lands. Examines the spatial location of arid regions and their climatic controlling factors. Weather patterns, hydrology, and eolian processes will be discussed along with sediment transportation and deposition of arid environments. The course will also review dune types and formation along with soils of arid zones. The course concludes with a discussion on the desertification and the impact of human intervention in the misuse of arid lands, while discussing preservation versus reclamation of these regions.

HTHS 1120 3 21076	Case Studies in Health	1200 - 1320	MW	MH304	
----------------------	------------------------	-------------	----	-------	--

Case Studies in Health Sciences is a course designed for students wishing to explore the interdisciplinary nature of health care using case study models. Each case study focuses on a disease process. Progression through each case study involves a review of anatomy and physiology, pathophysiology, medical terminology and a study of health professionals including their educational and training requirements. Additionally, the student will explore key medical diagnostic tests (e.g. laboratory, imaging) used in patient disease diagnosis, management and prevention. The course emphasizes the importance of the team approach to patient care.

HTHS 1120 3 23638	Case Studies in Health	TBA	TBA	OL	New ton, Kathy
----------------------	------------------------	-----	-----	----	----------------

Case Studies in Health Sciences is a course designed for students wishing to explore the interdisciplinary nature of health care using case study models. Each case study focuses on a disease process. Progression through each case study involves a review of anatomy and physiology, pathophysiology, medical terminology and a study of health professionals including their educational and training requirements. Additionally, the student will explore key medical diagnostic tests (e.g. laboratory, imaging) used in patient disease diagnosis, management and prevention. The course emphasizes the importance of the team approach to patient care. • To access online course materials, please go to your student portal and log into eWeber and click on WSU Online - Canvas

LING 4830 23736	3	Directed Read in Linguistics <a href="#">Full Semester</a>	TBA	TBA		LeTourneau,
Directed readings may be undertaken in the general area of linguistics, whether theoretical or applied. Specific topics are to be selected in consultation with the instructor and the linguistics minor program coordinator. The amount of material to be read, and any written assignments based on the reading, will be at the discretion of the instructor; it will be based on the level of the topic and the degree of difficulty of the reading, consistent with existing departmental or university guidelines.						
LING 4990 23737	3	Centering Experience <a href="#">Full Semester</a>	TBA	TBA		LeTourneau,
The Centering Experience is a capstone/synthesis requirement to be satisfied by reading texts from a list prepared by members of the Linguistics Minor Committee. The texts must be central to at least two of the disciplines represented in the minor. The reading will be done either as a directed reading or, enrollment permitting, a seminar, either of which may be team taught. Assessment in LING 4990 will be tailored to the students' interests, and might take the form of a practicum, a project, or a thesis (especially suitable for BIS or Honors students).

This course covers a survey of college mathematics and is also a preparatory course for calculus. Topics from continuous mathematics include polynomial, rational, exponential and logarithmic functions, equations and their applications, absolute value, polynomial and rational inequalities, and nonlinear systems. Topics from discrete mathematics include matrices, matrix algebra and inverses, determinants, sequences and series, counting techniques, and an introduction to probability. In addition, mathematics of finance, rational zero and binomial theorems and mathematical induction are covered briefly. Prereq: MATH 1010 or Math ACT score of 23 or higher or placement test. • This is a HYBRID course and students will be expected to work a minimum of two class periods outside the classroom online.

MUSC 2006 21566	0	Concert Attendance II <a href="#">Full Semester</a>	TBA	TBA		Priest, Thom
To be a successful musician, it is essential to develop excellent listening skills. Professional musicians are familiar with a wide variety of genres and styles. This course provides music students with opportunities to become familiar with the diversity of music that exists in our world. With this in mind, music majors and minors are expected to attend concerts and recitals on a regular basis. During the first two years of study, concert attendance is required and tracked by the department office staff. Students must concurrently enroll in applied music lessons. Credit/no credit grading. • Students must also enroll in private music lessons to enroll in this course. Pre-req: MUSC 1006.

		This course is designed from the nationally recognized guidelines of the End-of-Life Nursing Education Consortium (ELNEC) project. These guidelines are revised regularly to reflect current advances in the field. The purpose of the ELNEC project is to support the knowledge and skills of nurses in providing palliative care to patients who are experiencing serious illness or end of life. ELNEC content focuses on nursing care at the end of life; pain management; symptom management; ethical/legal issues; cultural considerations in end-of-life care; communication; loss, grief, bereavement; and preparation for and care at time of death. • Class will meet at the Davis campus on Thursdays September 3, 24, October 15, November 5, and December 10.

This course will explore healthcare policies, including financial and regulatory policies, which directly and indirectly influence nursing practice. These policies shape responses to organizational, local, national, and global issues of equity, access, affordability, and social justice. Students will learn to identify, analyze and problem-solve variables affecting nursing decisions and healthcare policy encountered in nursing practice. Topics will be presented that provide an overview of legal and ethical principles and theories, emphasizing the role of ethics and healthcare policy in nursing.

NRSG 4400 23931	4	CEL Population Health <a href="#">Full Semester</a>	0830 - 1220	T	MH327	Ballingham-
--------------------	---	--	-------------	---	-------	-------------

This course explores nursing in diverse populations in a local and global context emphasizing disease prevention, health promotion and cultural competency for the improvement of health status throughout the lifespan. Focus will include disparities in health and health care services, and the impact of behavior and lifestyle choices. This will include assisting individuals, families, groups, communities, and populations to prepare for and minimize negative health consequences. Students will examine frameworks of community and public health, assess and analyze prevalent population-based health issues, and explore population-based interventions. • Class will meet at the Ogden campus on Tuesdays September 1, 22, October 13, November 3, and December 8. CEL stands for Community Engaged Learning which means that students engage in meaningful community engagement that is connected to specific course objectives. See <http://www.wv.wvber.edu/ccel/cel-designation.html> for a full list of CEL designated courses.

PEP	2700	3	Sociohistorical Aspects/Sport	TBA	TBA	OL	Smith, Chad
24131			<a href="#">Full Semester</a>				

This course examines the popular fascination with, and the academic investigation of, sport in American society, to include gaining an understanding of how race, class, gender, ethnicity, politics, and religion can bind Americans in a community of shared values and aspirations. Students will explore the unifying power of sport, as well as how sport serves to reproduce many inequalities present in the larger society. Gaining an understanding of how these issues, and others, interplay with sport is critical for those aspiring to become successful sport coaches, as well as for those who simply wish to gain an understanding of the complex relationship between sport and society (e.g., parents, fans, and sport participants).

An in-depth exploration of selected topics and issues in the discipline, which fulfills the goals of a capstone class in the discipline. Students will be expected to read, analyze, and integrate research.

PSY 24635	4905	3	Capstone Selected Topics <a href="#">Full Semester</a>	TBA	TBA		
An in-depth exploration of selected topics and issues in the discipline, which fulfills the goals of a capstone class in the discipline. Students will be expected to read, analyze, and integrate research.							
PSY 22757	4910	3	Senior Thesis <a href="#">Full Semester</a>	TBA	TBA		Ashley, Aaron
A research project to be written by a senior student under the supervision of a faculty member. Successful completion of the research project will fulfill the capstone requirement of the major (as an alternative to PSY 4000 or 4090) and the senior project requirement for honors. The student must apply for acceptance into the course (applications available from the chair), and the research proposal and the final project must be approved by a faculty committee. It is expected that the course will be taken once for the writing and defense of a proposal and repeated for the writing and defense of the final project.							
PSY 22759	4950	1	Capstone Experience: Psych <a href="#">Full Semester</a>	TBA	TBA		Ashley, Aaron
This course is designed for graduating seniors to reflect on and integrate their training in psychology.
