ADDITIONAL INFORMATION

CATALOG YEAR

The information provided in this booklet is valid as of the 2018–2019 catalog year.

Your catalog year correlates with the academic year in which you become a *degree-seeking student* (when you enter the university after high school and pick a major). At that time, requirements may be slightly different for the program you planned to enter.

If you have questions or would like help choosing the best courses for your future major, please contact a CE advisor at ceadvising@weber.edu.

MATH REQUIREMENTS

Different degrees have different math requirements.

To get an idea of what math course(s) you may need for your major, you can look for your major in this booklet, visit the university catalog at weber.edu/catalog or talk to a CE advisor.

You can reach an advisor at ceadvising@weber.edu.

DUPLICATING DEPARTMENTS

You may only take one course per Weber State department to fulfill a particular general education requirement. For example, if you take both CHF 1500 and CHF 2400, only one of those courses will fulfill your social science general education requirement. You would still receive credit hours toward your college degree for both courses, but only one will be used to cover your General Education breadth requirement.

CONCURRENT ENROLLMENT

Get a head start on your future!

Concurrent Enrollment OVERVIEW

Concurrent Enrollment allows you to take college-level courses at your high school that count toward high school graduation and your future college degree.

This booklet shows you how to begin earning credit for over 30 of WSU's most popular degrees through Concurrent Enrollment courses that are available in your school.

Concurrent Enrollment PARTICIPATION

To participate, you'll need to fill out an application for admission to Weber State. When you do, make sure you select "Concurrent Enrollment" as your student type and select the semester that you intend to begin your first Concurrent Enrollment course at your high school. You will be asked to pay a one-time \$30 application fee. After you have applied, you can obtain your Wildcat username and password and then proceed to register for your Concurrent Enrollment course(s), at which time you will need to pay the tuition of \$5 per credit hour.

All of the info you need to apply can be found at weber.edu/concurrent.

Please note that the courses listed in this booklet for each degree are based on the 2018–19 catalog year. However, as a Concurrent Enrollment student, you will not be assigned a catalog year until you graduate high school and become a degree-seeking student at Weber state. At that time, your degree pathway will be determined by the courses required for that catalog year. For help picking the best courses for your future major, contact an advisor at ceadvising@weber.edu.

THE EDGE SCHOLARSHIP

The EDGE Scholarship OVERVIEW

WSU Concurrent Enrollment courses don't just offer you college credit — *they can help you pay your tuition, too.*

After completing 12 credit hours through Concurrent Enrollment, you can earn the EDGE Scholarship, which awards you **\$2,000 per year (\$1,000 per semester) for four years.**

During your senior year, update your Academic Record to be considered a regular full-time degree-seeking student. This **status switch** is what lets Weber State know that you want to be considered for scholarships. Find instructions at weber.edu/concurrentenrollmentedge.

The EDGE Scholarship QUALIFICATIONS

- > Complete 12 credit hours (or more) of Concurrent Enrollment courses offered by your high school.
- > Earn a minimum 3.0 (B) cumulative grade point average in your Concurrent Enrollment courses.
- > Complete all of your Concurrent Enrollment coursework no later than high school graduation during your senior year.
- > Become a full-time, degree-seeking student at WSU, and maintain a course load of at least 12 credits per semester.
- > Maintain satisfactory academic standing by maintaining an overall 2.5 grade point average, and complete the courses you've enrolled in.
- > Be a Utah resident and U.S. citizen.

Your Concurrent Enrollment coursework must be verified by WSU's Financial Aid & Scholarship Office prior to scholarship disbursement.

Learn more at weber.edu/concurrentenrollmentedge.

CAREER & TECHNICAL EDUCATION PROGRAM

wfnpathways.org

CTE Pathways OVERVIEW

Career and Technical Education (CTE) at WSU offers a wide range of career pathways for you to earn college credit, gain technical skills, participate in hands-on learning and jump start your career before you finish high school.

By choosing a career pathway (*a sequence of courses within your area of interest*), you will be on your way to gaining the education and experience you need to reach your dream. CTE career pathways can help you meet the following goals:

- > Earning an industry-recognized credential in your chosen field
- > Earning an associate's degree in your chosen field
- > Working toward a bachelor's degree and a successful career

Let us help you plan for life after high school. Contact your high school advisor or the WSU Concurrent Enrollment office for more information.

For a comprehensive list of available career pathways, visit www.schools.utah.gov/cte/pathways.

College of **SOCIAL AND BEHAVIORAL SCIENCES**

Archaeological Technician: **Cert**, **AAS**
Criminal Justice: **AS**

EARLY COLLEGE

Early College OVERVIEW

Are you looking to take classes that aren't available through Concurrent Enrollment at your high school? Eligible high school sophomores, juniors and seniors can take courses through Early College on one of WSU's campuses to earn university credit that may also apply toward high school graduation requirements.

As an Early College student, you'll have access to all the services available to Weber State University students while still being able to participate in classes and activities at your high school and graduate with your class.

The Weber State University Early College Program is proud to work with students from high schools around the Wasatch Front, as well as home-schooled students, to achieve their educational dreams.

Early College MORE INFORMATION

For more information, sign up for one of our required information sessions that are offered monthly at both WSU's Ogden and Layton campuses, as well as online.

Visit weber.edu/earlycollege for more information.

BUSINESS & ECONOMICS

Degree Available:
Associate of Science

GENERAL STUDIES

Degrees Available:
Associate of Art
Associate of Science

Have question about Concurrent Enrollment courses?
Complete the steps at weber.edu/concurrent, or contact a CE advisor at ceadvising@weber.edu.

An Associate of Arts (AA) or Associate of Science (AS) in General Studies provides you with a well-rounded base of knowledge and skills, and allows you to lock in General Education requirements for a bachelor's degree. Students wanting to complete General Education requirements, but not earn the full associate's degree, may be interested in earning a certificate of completion, which can be done through AP/IB and Concurrent Enrollment courses at some local high schools. **Please see your high school counselor for more information.**

We encourage you to start exploring bachelor's degree programs you may wish to pursue as early as possible. Visit weber.edu/majors to start exploring all of the degrees WSU has to offer. When you know what major you would like to pursue post-high school, we encourage you to seek academic advising for that degree. To find contact information for all of the WSU advisors, please visit weber.edu/advisors.

Requirements for Earning a Degree in GENERAL STUDIES

1. Minimum of 60 credit hours
2. Minimum of 20 hours in residency (WSU courses)
3. At least a 2.0 WSU grade point average (GPA)
4. All WSU General Education requirements
