Scheduling an appointment with your advisor through Starfish

1. Log in using your eWeber username and password

2. Type “Starfish” into your eWeber Portal and click on the app

We are having some Time Zone issues with our scheduling system and students have been showing up an hour early to their appointments. So make sure your profile is set to Mountain time, NOT Mountain Time – Arizona. To do this, click the Menu button in the top left of Starfish home screen. Then click on your name, then click Profile. Click the dropdown button next to Time zone and click Mountain Time.
3. Click on College of Social and Behavioral Sciences Academic Advisement

4. Click on the arrow next to your advisor’s name, then click “Schedule”

Not sure which advisor to meet with?

- **Stephanie Quinn** – Students majoring in Criminal Justice or Sociology
- **Amanda Butts** – Students majoring in Psychology
- **Erin Beltran** – Students majoring in Social Work, History, Political Science, Philosophy, Geography, Anthropology
5. Select the type of appointment you need.

6. Find a day/time that works in your schedule and click, “Continue”
7. Type any helpful details in the box, then click “Confirm”

8. Show up to your appointment approximately 5 minutes early and follow any instructions in the confirmation email (such as Bring your photo ID, or completing BounceBack modules).
