   d. Ravi shared that he has distributed the PCP letters.
   e. Deans’ Council spoke about the recent snow day. The group discussed the logistical implications of moving to virtual delivery of courses and services—rather than canceling classes or delaying openings, during future campus impact events.
   f. Deans’ Council discussed the requirements for promotion to full professor included in PPM 8-11, including potentially defining and/or clarifying “equivalent activities.” Ravi will speak with Jason about involving APAFT and the Faculty Senate Executive Committee in this discussion.
   g. Ravi and Deans’ Council congratulated the EAST folks involved in today’s Promoting Student Success Speaker Series event. Brenda shared that a recording will be shared through the Speaker Series Canvas course. Ravi invited Kristin to give an update on the College Success Team efforts.

      ii. Deborah shared results of the dean survey she helped facilitate in regards to the definition of Schools under discussion in CRAO.
      iii. Teaching and Learning will hold the Thrive Symposium on April 6-7. Ravi will engage in a discussion with faculty as part of the event. A banquet will be held
the evening of the 7th where faculty will be recognized for awards they have received.

3. Academic Agenda/Policy Discussions
   a. Gen Ed Revisions (R470 changes) and opportunities (Eric, Wendy, Andrea, Deborah)
      i. Eric offered updates on the process, including sharing the work of the General Education Task Force. He reviewed the results of the 2020 legislative audit in relation to general education alignments. He discussed the Task Force’s attempts to thread the needle of developing guidelines to promote commonality in Gen Ed programs. Eric shared updates about the framework the Task Force is intending to put forward. Eric highlighted the potential Institutional Gen Ed Area, which would transfer “agnostically.” This would allow students who complete general education requirements to transfer them as a whole, without being required to complete another institution’s Institutional Gen Ed Area. Eric mentioned that a book group will be held, following The Evidence Liberal Arts Needs by Richard A. Detweiler, and highlighted the ongoing work of deans surrounding themed learning communities.
      ii. Deborah and Wendy spoke about this work, which focuses on helping make Gen Ed a meaningful experience for students. They discussed efforts to teach students about the benefits of a liberal arts education, rather than a means to an end or seeing the classes as departmental recruitment efforts. Deans’ Council discussed the potential resourcing and cultural impacts of these changes.
   b. Continuation of BIS / General Studies Pathway discussion - Jessica
      i. Deans’ Council discussed feedback from departments and leadership teams on this topic. Feedback included discussions of assessment and program review impacts of a nebulous interdisciplinary degree versus a general studies degree. Deans’ Council discussed the structure of the Interdisciplinary Studies degree and the other options to help and retain students who have 90+ credits and no degree. Deans’ Council also spoke about the trend among USHE schools to move their General Studies-type degrees from associate to bachelor’s degrees. Deans’ Council also discussed pathways embedded in colleges to help students who are not accepted into their anticipated program. Deans’ Council also spoke about the university’s potential responsibility to students who have not completed a program of study. The group also discussed the faculty resources involved in supporting these students. Jessica will compile and coalesce the discussion to develop a starting point for ongoing conversations.

- Faculty equity model data
- Policy recommendations from APAFT
- Overload charge updates
- Review progress made by sub-committees so far
- Review [survey questions](#) related to both overload compensation and merit pay
- Charge 10: Monitor how various colleges allocate merit pay and poll faculty to determine if decisions are fair and transparent. (Last two questions on [current survey](#)).

* استراتيجيات حوارية*:

- Overload charge updates
  Valerie shared what the charge is and how they want to proceed and the questions that have come up concerning budgets and pay inequities. The committee is looking at options of, if the money goes to the department and then any overage goes to a central pot in the provost office.
  James Hedges spoke about how things currently work in CE and that he is learning how it has been functioning to date. CE is looking at online courses and considering putting some caps on the courses. Because it is not realistic to expect that a class of 100 would be the same kind of experience for the student as a course with 50 students. He spoke about the way that program administrators (PA) currently interact with departments by telling them what they will cover and spoke about looking at three year trends and how many might CE be able to support with relation to the numbers in the departments. PA are currently being trained to communicate with the chair or the program coordinator. CE is the steward of four pots of money that are used in CE and they have money that is earmarked for specific types of courses. (ONL or night) The desire is to work with departments to meet the demands of the students.
  There are no student recruiting for online programs, there is not a hub to explain what it means to be an online student and WSU does not market separately.
  Discussion on looking at ONL interactions and how to track what is happening, is the faculty member initiating contact, are they providing good feedback, are assignments being graded in a timely manner these are some of the questions that need to be addressed.
  Conversation on what the CE department can provide data wise for the charges that the committee is waiting on. After reviewing quickly James Hedges said he can get some of the information within a week.
Questions on if there is a way to make a waitlist trigger the CE office to offer a new section.

OUTCOME: Find the optimal way to make policy revisions that are required to make it equitable and refine it into a workable solution.

- Charge 10: Monitor how various colleges allocate merit pay and poll faculty to determine if decisions are fair and transparent. (Last two questions on [current survey]).
  - Will revisit this in the January meeting.

Meetings scheduled on Mondays 2:30 - 4:00

- **The committee has several questions regarding #8 which need to be addressed before addressing it.**

- 1/4/23:
  - Determine formal scale for biennial report evaluation
    - The group decided on a three point scale: 1- insufficient 2- developing 3- sufficient
    - In general, insufficient indicates that something is missing and feedback should be provided about what that is.
- Developing feedback should indicate that the department is making good progress and provide feedback about what needs to be done to achieve a rating of sufficient.
- Sufficient feedback should provide direction on how the report could be exemplary- even though this is not a formal rating. In addition to providing adequate data, exemplary reports show reflection, why specific data was chosen, and how it was collected.
  - It was also suggested that some narrative be provided on the next stage/how assessment will be reviewed at the program level. Ratings at the program review level are
