D. Governance and Administration

1. A table clearly outlining the internal organization of the art/design unit. If applicable, outline the administrative and operational relationships of the art/design unit to the parent institution. Include names as well as titles of individuals.

A-271

2. For independent schools of art/design, the table must include a profile of the Board of Directors that includes the names, business affiliations, and lengths of service. The table of organization should also include the Artistic Director, if applicable.

Not Applicable

3. Description or outline of the art/design executive's responsibilities and authority including teaching, creative work and research, performing, and community service, as well as administration.

The chair, like the faculty, is expected to maintain a balance of teaching, scholarship, and service. The standard teaching load for chairs at Weber State is half load. This varies among departments and at times within one department depending on the current projects and responsibilities. For example, for a time, while the Kimball Visual Arts Center was being constructed, my teaching load was eliminated. Theoretically the chair should be able to accommodate all of the additional responsibilities of being chair through the release of two classes. A half class load release load equals 12 contact hours per week in class and perhaps 6 hours of preparation time out of class. Thus the chair's job should be able to be covered in 18 hours per week. But the situation described by previous chair Jim Jacobs, in the 2010 NASAD self-study still largely holds true.

In 2010, Jim Jacobs wrote as follows in this self-study:

"During spring semester 2009 I spent approximately 34 hours per week on standard administrative duties in the office. I also spent 6 hours per week in the evenings teaching Painting I and used 2-3 hours per week preparing for the class. No time was spent on creative or scholarly activities and more time was probably needed for administration. This semester I find myself spending 40+ work-week hours at school and 15 hours during the evenings and weekends on school work. Nine of those hours are dedicated to the class I am teaching."

Some of responsibilities of the chair are,

- a. scheduling of classes
- b. review and approval of purchases/expenses
- c. the supervision of professional and classified staff, including the gallery director
- d. articulation of courses from other universities
- e. hiring and monitoring of adjunct faculty
- f. review graduating students transcripts and sign them off for graduation

- j. conducting post-tenure reviews
- k. participating in peer and rank and tenure reviews
- 1. monitoring the website for accuracy
- m. overseeing course fee development
- n. overseeing the building: seeking repairs, overseeing access permissions,

4. Outline the governance and administrative responsibilities and relationships among faculty, staff, and administration.

The department operates with shared governance. Policies, curriculum, and other developments are discussed in faculty meetings and approved with a majority vote. Committees are established to work through preliminary ideas. Once refined, these ideas are proposed in a faculty meeting and either approved or rejected. Curriculum, Peer Review, Rank and Tenure, Gallery, Web Design, among others. Faculty members from the various studio areas are responsible for advising BFA students.

They perform various clerical support duties for the department. Before new student orientations they create orientation folders.

5. Present policies regarding the term of the chief art/design executive and reviews of the chief art/design executive.

E. Faculty and Staff

1. Policies and procedures: (a) for calculating faculty loads, including credit for the direction of graduate dissertations, projects, research, etc.; (b) for evaluating teaching effectiveness of art/design faculty; (c) regarding faculty development; (d) regarding the number of technical and support staff.

The normal teaching load for Weber State University faculty is 24 semester hours per academic year. The credit-hour base for the teaching load is computed using the following considerations:

1. Courses that Require Regularly Scheduled Instruction

The instructor accrues the same number of credit hours of instructional load that the course generates for students taking the course.

2. Activity Courses and Supervision of Laboratory Experiences

Instructors accrue one-half of the time spent in class as part of the instructional load assignment.

3. Shared Course Responsibilities

For courses that are team taught, or for which there are components beyond the scheduled instructional times, the instructor receives credit for that component directly taught or supervised.

4. Directed Readings, Special Problems, Individual Studies and Research Studies

The instructor accrues one-fourth credit hour of teaching load for each student credit hour supervised. During any semester of the academic year, no more than three credit hours of teaching load may accrue in this area. (DOVA decided to offer no credit to faculty for independent study)

B. TEACHING OVERLOAD

- 1. A regularly contracted faculty member may teach a maximum of 7 credit hours per semester up to a maximum of 12 credit hours per academic years (two semesters).
- 2. Uncompensated courses (directed readings, clinical supervision, internships, etc.) are exempt from the overload limit.

Daniel Dolberg

Daniel Dolberg has served as an adjunct professor of art at Weber State University for the past 11 years. Son of a college professor himself, Daniel has traveled extensively throughout Europe as well as Australia, New Zealand, and North Africa. He received his MFA in painting from the University of Utah and his BFA from Brigham Young University. Over the years his work has ranged from large abstract cubist paintings, reminiscent of the work of Bauhaus artists Lyonel Feininger and Franz Marc, to impressionistic realism in the vein of the late 19th and early 20th century American Impressionists. Running through all of his artwork is a common vein that conspicuously resonates with the impact of

historical art movements, but with a Postmodern twist. A recent painting series involved the depiction of historical subjects such as the presidents of Mount Rushmore fame and early 20th century Native Americans, with the subjects loosely painted over clear-acrylic-sealed maps adhered to panels, with map elements still coming through, asserting the prominent connection between the subjects and the lands depicted by the maps. Other recent forays into landscape, sunsets, and clouds seek to find a balance between the emotion of abstraction and the clarity of representation. Daniel's work can be found in the personal collections of prominent citizens around the Salt Lake valley, as well as in Brigham Young University's Permanent Art Collection. Three of his large paintings are on display in a prominent location on the second level of BYU's Harold B. Lee Library. Daniel continues to pursue his interests in teaching at WSU while working on commissioned paintings in his home studio, completing mainly figurative works and impressionist landscapes.

Currently, she is teaching art as an adjunct professor at Weber State University and lives in Northern Utah.

Ya'el Pedroza

I currently live in Ogden, Utah, received my M.F.A. at California State University at Long Beach, and my B.F.A. at Sierra Nevada College in Incline Village, Nevada. My art has been shown nationally in group shows throughout California, New York, Florida, Washington, Nevada, Oregon, Illinois, and Wisconsin, and I have also participated in shows internationally in Italy, and Denmark at the Roennebaeksholm Arts and Culture Center.

My work is an observation of the combined human condition and our current environmental situation. It conveys human interplay with the natural world by showing man's footprint on our biological environment, and how it is altered by certain deliberate, as well as unintentional interactions, resulting in imagery of these possible outcomes and exchanges.

Although my work often time deals with man verses nature and the dilemmas that occur as a response, in my most recent works I have been transitioning into exploring my relationship with nature in a more spiritual, emotional, and subconscious way. It has always been the beauty, strength, and complexities of nature that have drawn me to it as a major theme in my work. I recently find myself conveying nature less as the victim of human interaction and more as a capable and prevailing entity.

Margaret A (Peggy) Reimschussel

Born and reared Utahan, graduating from Brigham Young University (BA) in English 1970 and Weber State University (80 Hour Program/BFA equivalent) in 1988. After graduating with honors, the Department of Art invited her to return and teach as adjunct faculty in 1989 where she has continued to teach "Art for the Non-art Major" for twenty years. Her career in the arts include creating, designing and executing all aspects of community theatre; managing a "satellite" ballet school for Utah's premiere regional ballet company, Ballet West (1998 – 2006 Eccles Community Art Center, Ogden, Utah); and designing/developing (along with her daughter) her own greeting card company, Folding Giraffe, LLC (2006 to present). Both individuals and local business display her paintings and sculptural pieces in their collections.

Gretchen Reynolds

Started painting when she was seven years old. Her parents gave her a complete set of oils. She knew they were the real deal because they came with no instructions. Looking at the little bottle of linseed oil she remembers thinking, "I have no idea what to do with this." She painted a puppy and a kitty. She was hooked.

At nineteen, she began studying modern dance in Seattle, Washington, then theater, then

marionette theater. She traveled with her own Madigan Strung Puppets Marionette Theater and landed in Utah, where she planned on spending one year before going to Europe to study and hopefully teach puppet theater. Four years later, still in Salt Lake, she entered the University of Utah. The painting and drawing department brought her back to her first love, oils. She earned her Bachelor of Fine Art, and then went on to do her Masters of Fine Art. Her work, which explores the possibility of abstraction and realism in the same image, has been exhibited across the United States. She teaches painting and drawing at Weber State University. Her work is currently at Agora Gallery, New York and Phillip's Gallery, Salt Lake City.

Kent Ripplinger

While growing up on a small Utah farm I was influenced by the open space and I became interested in my relationship to various places and the land. This has carried on into my and writing and photography as I still enjoy exploring our broader human connections and disconnections with landscape and place. That former more agrarian time and atmosphere of my youth appears more durable in my mind with its methods of living which were presumably more enduring and bound to place than the methods of living in a place which are common for us in The West today. And so I find it very natural to explore what it means to live in the modern West and to investigate the concepts of how an increasingly material and technologically-based culture becomes less agrarian and more separated from the land substituting our historical land ethic and ideal with our plethora of modern material substitutes. I as well look into manifestations of acculturation, the conquest of minority groups on the canvas of the Western landscape, industrial conquests of landscape and Nature, and the limits and durability of technologically enamored culture with influences stemming from the works of writers like Henry David Thoreau, Wendell Berry, Sarah Deutsch, Edward Abbey and other writers.

Currently I am continuing my explorations of material culture in the Western landscape through writing as well as straight documentary photography.
