

# DUAL ENROLLMENT

## Why Dual Enrollment?

- **LOW TUITION FEES**  
*\$30 one time admissions fee  
\$5 per credit hour thereafter.*
- **HIGH SCHOOL CREDIT**
- **UNIVERSITY CREDIT**
- **CAREER CREDENTIALS**
- **MARKETABLE SKILLS**  
*Instructors at your school have been trained in the latest technology including our new Electric Vehicle (EV) courses.*
- **EDGE SCHOLARSHIP**  
*Students who complete 12 credit hours of dual enrollment with a 3.0 GPA receive a \$2,000 per year tuition waiver! (the GPA requirement only looks at their dual enrollment GPA...not their overall high school GPA)*

When your student enrolls in a Dual Enrollment course, they receive their required credits for high school graduation. The same course also gives them university credits that can help them earn career credentials while still in high school.

Students take university level classes at their high school from high school faculty members who are certified by WSU to be qualified adjunct faculty. Students will be admitted to Weber State University and will need to register for each course. We will begin this process during school hours, but it requires a payment, so most students will complete the admissions and registration process at home. Please ask them about it!

Dual Enrollment students can earn up to 30 credits in one academic year. Your student has the ability to graduate with their Automotive Service Technology Certificate from Weber State University before high school graduation.

**QUESTIONS?**

**[jennifervesper@weber.edu](mailto:jennifervesper@weber.edu)**

# COURSES OFFERED

**AUSV 1000** - Introduction to Automotive

**AUSV 1021** - Brakes
