Stephanie, starts to go over the Rationale, it was created with what Abel puts together and then this is where Camie and Stephanie looks at the expenditures for what has been paid out.

- Asked about the substitute teacher list and wondering how much of this money has been used? We have to go through Weber State and it is a little more complicated than the districts. Letitia piped in and said many districts have gone to a temporary service and wonders if that is something that is possible. Carrie Ota asked if the PT hourly under the MSL Children’s School could be a sub for the Charter Academy.

- Camie stated our policy says that a current Teaching license/degree is required in order to be a sub in the Charter.

- They will be looking at our Policy to be a little more lenient like the Districts.

- Teri asked about where her compensation is coming from.

- Wei clarifies it goes into the College of Education and it is included in her Contract.

- Increased cleaning supplies for COVID.

- Fieldtrip coverage is for bussing and there is money in the School Land Trust budget for fieldtrips also.

- Supplies and materials, Teri would like to know if we are still looking at a new Math curriculum.

- Majority of money comes from State funding and we get some from our Fundraiser.

- State funding pretty much runs the school!

- Budget is looking to be pretty much the same as last year with the exception of some of the Salaries.
