### Once I am qualified to apply, how do I improve my chances of getting accepted?

- Complete as many Science Option and Support courses prior to applying, with a grade of 'C' or higher. The more you have completed prior to applying, the more consideration you will receive.
- Complete an AS/AA or BS/BA degree from any regionally-accredited institution.
- Although first-time applicants may be accepted into the program, additional consideration will be given to previously qualified applicants.
- Complete a mock interview with Career Services 801-626-6393 to prepare for the group interviews.
- HIM 3300 Intro to Quality Improvement in Healthcare (3) is highly recommended.

## FREQUENTLY ASKED QUESTIONS

### How do my credits transfer from other institutions?

You may visit our online transfer guide at [weber.edu/transferguide](http://weber.edu/transferguide) for a list of courses from other regionally-accredited colleges/universities and show how those courses may transfer to Weber State University.

### Is there a time limit to how old my courses can be?

There is no expiration for any other prerequisite courses; however, if students stop at Math 0950, 0990, 0970 or 1010, and do not fulfill Math Quantitative Literacy (QL), Math will expire after two years per WSU policy. Once a student completes the Math QL requirement, there is no expiration.

**What should I take?** First priority should be the applicant checklist; second priority should be the general education requirements and completing an AS Degree, third would be taking HIM 3300 Intro to Quality Improvement in Healthcare (3) it's highly recommended.

### Do I need letters of recommendation?

No. The department does not ask for letters of recommendation. The online application consists of a fee, unofficial transcripts from all colleges and universities (including WSU). If students complete the CNA or EMT course or certification in place of REST 1560, proof of this needs to be uploaded.

### What should I expect once I'm accepted into the program?

You will have lab and class three times a week and clinical hours twice a week at your assigned facility. Clinical sites are assigned to you by the department and range from Logan to South Salt Lake. The length of the program varies by location, Ogden is 4 semesters (no Summer), Davis and SLC-Farmington are 5 consecutive semesters.

### Are there night courses available?

The prerequisite courses may be done at night or online; however, the Respiratory Therapy program is taught during the day (not online). You will need to be available from 8:00-5:00 Monday through Friday for the program.

For additional questions on application requirements or any other Pre-Respiratory Therapy concerns, please contact the Dumke College of Health Professions Admissions Advisement Office. An **advising video** is also available on our website, that has an advisor going over the applicant checklist, along with other videos and helpful information.
