## A MESSAGE FROM PRESIDENT

**BRAD L. MORTENSEN**

Dear WSU Graduate:

Thank you for choosing Weber State for your studies. The richness of our reputation for providing personal interaction, connection and support exists only because of students like you.

Graduating in 2021, during the coronavirus pandemic, is something you will always remember. As you reach the pinnacle of your academic pursuit, every discipline, from health professions to business and economics to science to education to arts and humanities to social and behavioral sciences to engineering, applied science and technology, is realizing new applications for its knowledge and principles to confront the challenges of this global health crisis. The education you have obtained at Weber State will help you be part of finding a better way forward.

In addition to the completion of the academic requirements for your degree, a diploma dated "2021" also represents your fortitude for completing despite the disruption of spring semester. You have confidence not only in your knowledge but also in your grit, determination and adaptability to overcome difficult circumstances. Whether you continue to another degree or enter the workforce, this huge accomplishment will always propel you to greatness.

Reflecting on our journey through 2020-21 would not be complete without recognizing calls for greater justice and equity. In the face of protests and unrest, racial tensions and political strains, the values of community engagement and inclusive excellence embedded in your Weber State experience will serve all of us as we work for solutions.

Time and time again, employers tell me that Weber State produces model graduates with a unique set of technical, critical-thinking, communication and problem-solving skills required to be successful in today's rapidly changing workplace. We know the creativity shared between you and your professors and the assistance of supportive staff members opened doors to a unique learning experience rooted in student success. Boldly step out into your next chapter knowing that you are prepared and that your Weber State family and I are forever cheering you on to more success.

You are now an alumna/us of this great, Great, GREAT university. I encourage you to stay connected to your alma mater as you continue on your life's journey. We rely on the stories of your success to convey Weber State louder and prouder. Please join us in this effort by engaging with the WSU Alumni Association. Congratulations again on your graduation. Celebrate (following appropriate social distancing and safety protocols, of course)! You deserve it. Enjoy this day and the brighter future that you now have because of your success.

**Dr. Brad L. Mortensen, WSU President**

## BOARD OF TRUSTEES MESSAGE

**Donald J. Salazar**  
**Sherri Cox, Secretary**

On behalf of University Trustees, we congratulate you on your graduation from Weber State University.

More than any time in history, an education is required to equip one to compete in a global economy. Through your graduation, you have taken a significant step toward ensuring a better future for you and for future generations. We are pleased to be part of your success.

In a world where knowledge is said to double every few months, all of us must commit to a lifetime of learning and reinventing ourselves. Technological advances and the forces of globalization are reshaping our lives, and your graduation is a significant achievement as you seek to prosper in this new era. We trust that through your efforts — evidenced by today's graduation — you have taken a significant step in preparing yourself to thrive and find future success and happiness.

Albert Einstein said, "Wisdom is not a product of schooling but the lifetime attempt to acquire it." Another great mind, Eleanor Roosevelt, said "I think, at a child's birth, if a mother could ask a fairy godmother to endow it with the most useful gift, that gift would be curiosity." Keep your curiosity alive, and continue to challenge yourself to learn throughout your life, and you will assure your own wellbeing and the wellbeing of those around you. It is also important you use the talents and abilities gained through your education to contribute to the community and society at large. Author David McCullough Jr. said, "The great and curious truth of the human experience is that selflessness is the best thing you can do for yourself."

As an educated person, you have a responsibility to reach out and assist others, and we encourage you to do so. Your success is built on the efforts and sacrifices of so many before you, and you have an equal obligation to help pave the way for others.

Again, we offer you our heartfelt congratulations, and we wish you every success.

## WSU STUDENT ASSOCIATION FAREWELL

### Dear Graduates:

Congrats, Cats! On behalf of the WSUSA Executive Board and every member of WSUSA, we congratulate you on this major milestone. We challenge you to continue using the skills gained throughout your Weber State University experience.

Be courageous. Be resilient. Be forward thinking. Be you — a graduated Wildcat.

You are now an official alum of Weber State University! It truly is a great, great, great honor to be an alumnus of such an incredible institution. We hope you value your education, enjoyed your experiences, and always remember to bleed purple.

Today, you join more than 154,430 alumni who call Weber State University their alma mater. WSU continues to meet the needs of our local and global community. We celebrate your inclusion in this growing number.

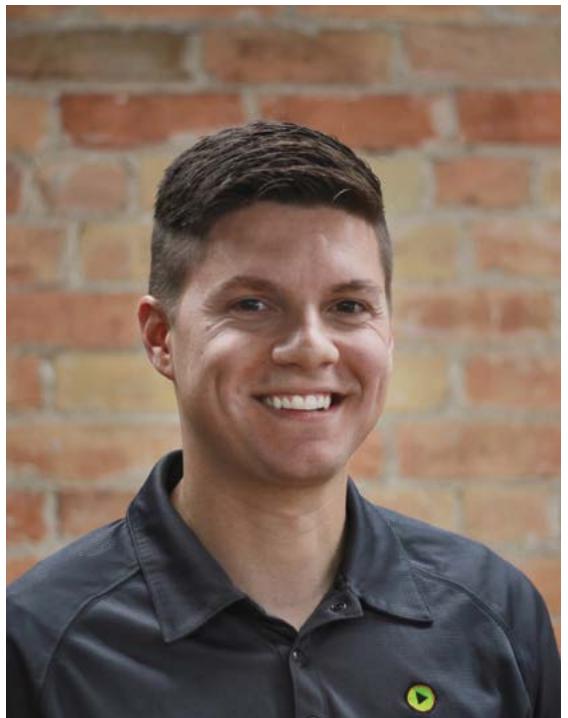

According to the U.S. Census Bureau, college graduates earn an average of \$1 million more than high school graduates over their lifetimes. Your recent degree, along with your knowledge and skills, provides you with this opportunity. Make the most of it!

Consistent with this year's theme, "Louder and Prouder," we hope you use this time to propel yourself into the future. It is the time to be louder and prouder to make a difference and to pave a future of leadership. When you walk out the doors today, remember those who follow in your footsteps are counting on you to make the world a brighter place.

Best wishes, Wildcats!

2020-2021 WSUSA Executive Board

## ALUMNI ASSOCIATION WELCOME

On behalf of the Weber State Alumni Association, I would like to extend our most energetic congratulations! You set a goal to graduate and you have done it. You can accomplish hard things! All of your effort, grinding, stress, creativity, late-night study sessions, preparation, procrastination, and possibly caffeine have resulted in your becoming a college graduate!

For some of you, the next step is more studies. For others, you are entering the workforce. This is an incredible time of life. You have so many options before you. The future is bright and you can choose to do something great. My favorite quote from a commencement speech is from the actor, Jim Carrey, as he made the point that, "...you can fail at what you don't want. So you might as well take a chance at doing what you love."

Weber State has helped you take a step toward doing something you will love, and making a difference in the world. We invite you to stay involved, attend campus events, and give back to the university. You are now a part of the Weber State Alumni. This network can be an asset in your life. We will keep you informed and invite you to engage with us. Our association supports future Weber State students as they work toward their own graduation.

One of the things I learned in college was to stretch out any message so I could fit the page requirements of an assignment. I'm not going to display that skill here, but instead I will keep this to-the-point.

Weber State is great, great, great! You are now and forever a Wildcat!

**Curtis Funk**, WSU Alumni Association President

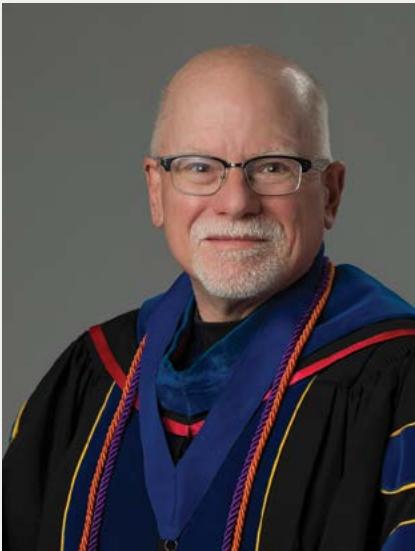

## BRADY PRESIDENTIAL DISTINGUISHED PROFESSORS

The Brady Presidential Distinguished Professor Award was made possible by a generous gift from Rodney and Mitzi Brady. Rod served as president of Weber State College from 1978 to 1985. His leadership left an indelible impression on this institution. Following the wise advice of his father, Kenneth Brady, who once said, "The story of one's life is interesting and important only so far as it affects the lives of others."

President Brady worked tirelessly to raise the bar in the quality of undergraduate education offered at Weber State. He stressed the importance of attracting and retaining dedicated faculty and urged them to constantly

pursue teaching excellence. The Brady Presidential Distinguished Professor Award is the prestigious recognition of the most respected members of the WSU faculty; to encourage teaching, scholarship and research of the highest quality; to promote the recruitment and retention of the excellent faculty members; and to provide stipends that will enable recipients of this honor to further their professional academic objectives. Recipients of this honor are tenured full professors with a minimum of five years of service at WSU; nominated by their peers; and selected by senior faculty members and academic administrators.

### MICHAEL VAUGHAN

The start of Michael Vaughan's long and gratifying career at Weber State was something of an accident. As an economics doctoral student at the University of Nebraska, Vaughan heard about Weber State from a friend, who had applied for a job and praised the school's focus and breathtaking setting. Although his friend didn't receive a job offer, Vaughan was hired as an economics faculty member. He is grateful for that serendipitous turn of events.

As a teacher, Vaughan focused on creating impactful learning experiences. For years, he taught the Executive Lectures course where he brought business people, community leaders and authors to campus to meet with students. He led students on trips to corporate annual meetings and established the Wall Street Fellows program where students networked with alumni employed in New York's investment-banking industry. In both graduate and undergraduate courses, he donated funds to teams of students and challenged them to give the money to nonprofits where the

donations would have the greatest impact. More recently, he collaborated with art professor K Stevenson to allow Honors Program students to explore economics through the visual arts.

Vaughan held numerous positions at the university, including Department of Economics chair, associate dean and subsequently dean of the John B. Goddard School of Business & Economics. As dean, and with the assistance of Mr. Goddard, Vaughan spearheaded the creation of WSU's MBA program.

From 2004-2015, Vaughan served as provost. Under his leadership, WSU created the Center for Community Engaged Learning, was granted approval and accreditation for the first undergraduate and graduate

engineering programs, earned a coveted All-Steinway School designation for the Piano Program and established the LGBT Center.

As provost, Vaughan worked to make higher education accessible and affordable. In 2008, he was instrumental in creating the Dream Weber program, which covers tuition and fees for qualifying WSU students with an annual household income of less than \$40,000. The program has made the dream of a college education a reality for thousands of students.

Retiring this year, Vaughan is grateful for all the ways Weber State University enriched his life. "I have learned more at Weber State than any university I attended as a student," Vaughan said. "I am grateful to have spent 40 years at an institution that makes learning the No.1 priority."

## MIKEL VAUSE

Former students and colleagues describe English professor Mikel Vause BS '82 as an author, poet, scholar, environmentalist, adventurer, mentor and friend; they call him a "master of the mountain and classroom." Vause is the quintessential storyteller. His graduate work culminated in a dual Master of Arts in American literature and American studies, and a Ph.D. in British literature from Bowling Green State University.

Vause began teaching at Weber State in 1982. To give undergraduate students an opportunity to present their writing to university peers throughout the country, in 1985, Vause and a colleague organized a conference that quickly became a Weber State showcase. Each year, the National Undergraduate Literature Conference attracts hundreds of student writers and brings some of the world's most important literary figures to WSU.

Vause established "The Dead Poets Tour," a popular study abroad trip to England, Scotland and Wales, and as the Honors Program director, he organized a service expedition to Langtang Himal that included his honors students, alumni and community members. His teaching is recognized with numerous honors, including the Crystal Crest Master Teacher Award, the Cortez Outstanding Honors Professor, the George and Beth Lowe Innovative Teaching Award, three Hemingway Awards, the H. Aldous Dixon Award, The Lindquist Creative Arts Award, and is recognized on the Ben Lomond High School Wall of Fame. Vause also received the first Annual Distinguished Literary Arts Advocate Award and the Distinguished Service Award from the Utah Academy of Sciences, Arts & Letters.

Vause is the author of 10 collections of poems and author and editor of six other books. His poem "What Said the Thunder" was nominated for a Pushcart Prize, and his book of poems, *The Scent of Juniper* for the Boardman-Tasker Mountain Literature Award.

He served as the editor for *The Journal of the Utah Academy*. Vause is also the only non-British judge and chair of judges for the Boardman Tasker Award for Mountain Literature. Vause has climbed and lectured, and participated in scholarly conferences in various locales some of which are in the U.S., Arctic, Norway, Nepal, Tibet, Canada and extensively in Scotland, England and Wales. He was a member of the 2011 CE British Expedition to the Northside of Mount Everest in search of the body of Andrew Irvine of the 1924 British Everest Expedition.

Lou Jean Flint is a native of Davis County. Her lifetime of work in education and with the Utah System of Higher Education has created opportunities and opened doors for students.

Following a divorce and with three children to look after, Lou Jean needed career opportunities and decided to begin her higher education journey in her 30s. Attending Weber State College provided her with "feelings of accomplishment when times were tough." She received her associate's degree in 1968 and graduated in 1969 with a Bachelor of Science degree in early childhood and elementary education. She began teaching kindergarten at Muir Elementary in Bountiful, Utah. During this time, she returned to night school and graduated with her master's degree in 1974 from the University of Utah.

In 1977, Lou Jean became an education specialist for the U.S. Department of Defense in Europe, covering England, Scotland, Norway, Denmark and Holland. Following her time in Europe, she returned to Utah and earned her Ed. D. at the University of Utah in 1981. During this time, she began working in the office of the Utah Commissioner of Higher Education as its first full-time female employee.

Lou Jean administered several state programs and initiated others, including the yearly report, "Women in Faculty Positions in the Utah System of Higher Education." Within five years, the report brought about a 25% increase in women in Utah higher education institutions. She chaired the committee that created the Utah Career Teaching Scholarship, which continues to provide funds for students who want to be teachers, and administered the Western Interstate Commission on Higher Education that funds veterinary and dentistry students.

She also volunteered in her community, creating Women in Science and Math, which funds workshops for girls interested in math, science and technology.

Lou Jean has remained a tireless advocate for Weber State University, chairing the search committee that requested proposals for land for the WSU Davis campus and securing land for the current Layton location. She has served as a member of the Jerry & Vickie Moyes College of Education advisory board since 2016.

Lou Jean's family has followed in her footsteps with a great-granddaughter graduating from the College of Education today, as well as one daughter and three granddaughters who have degrees from Weber State.

## HONORARY DEGREE RECIPIENT

### CECELIA FOXLEY

Cecelia Harrison Foxley is a well-known Utah native, philanthropist and mentor who served as the commissioner and chief executive officer of the Utah System of Higher Education (USHE) for 10 years. The longest-serving member and the only woman to hold the position, Dr. Foxley is an accomplished educator and advocate for equity.

A self-proclaimed “Centerville girl,” in an interview for the Utah Women’s Walk, Dr. Foxley was a self-starter from an early age who went on to become a first-generation college student. She earned a B.A. in English from Utah State University as well as an M.A. in English and doctorate degree from the University of Utah.

During her sophomore year at Utah State in 1962, she was crowned the National College Queen, which meant earning a scholarship, money, a new car (a pale blue Austin-Healey Sprite) and appearing on *To Tell the Truth*, a TV show at the time. She was also a member of the Kappa Delta sorority.

Foxley went on to hold faculty and administrative positions at Utah State University, the University of Iowa, and the University of Minnesota along with teaching high school English early on in her career. She was and continues to be a tireless champion for students and Utah’s postsecondary institutions.

After leaving her post in the Utah System of Higher Education in 2003, Foxley focused on consulting and philanthropy including serving on the United Way of Salt Lake City Board of Directors. She was also honored as the 2013 United Way Volunteer of the Year. Along with funding scholarships, she also founded the ARCS Utah Chapter, a group that raises money for graduate students in engineering, science and medicine. Foxley has also worked nationwide as a higher education consultant, assisting state higher education boards as well as government bodies and businesses.

Throughout her storied career, Foxley has held numerous prestigious positions including president of the State Higher Education Executive Officers, deputy commissioner of USHE and the associate commissioner for academic affairs. She was also the first director of the Affirmative Action/Equal Opportunity Employment program at the University of Iowa.

An accomplished writer, Foxley has authored or co-authored six books and numerous journal articles on topics including educational leadership, non-sexist counseling, human relations education, equal opportunity and more.

## HONORARY DEGREE RECIPIENT

### TA’U PUPU’A

Ta’u Pupu’A is a world renowned operatic tenor whose unconventional path to a prestigious singing career included a detour — courtesy of the NFL. He grew up in Utah after his family moved to Salt Lake City from the Kingdom of Tonga when he was five. A football scholarship paved his way to attend Weber State University in the ‘90s, where he planned to get his bachelor of music degree.

His musical education at WSU was interrupted when he was drafted to the National Football League in 1995 as a defensive end by Coach Bill Belichick of the Cleveland Browns, later spending time on the Baltimore Ravens. But an unexpected injury early in his football career changed his life course, allowing him to follow his other passion: opera.

Pupu’A moved to New York to pursue his musical career. It was there he met his mentor, Kiri Te Kanawa, who helped him get an audition at the prestigious Juilliard School of Music. He was accepted on full scholarship, and graduated from the Juilliard Opera Center in 2011.

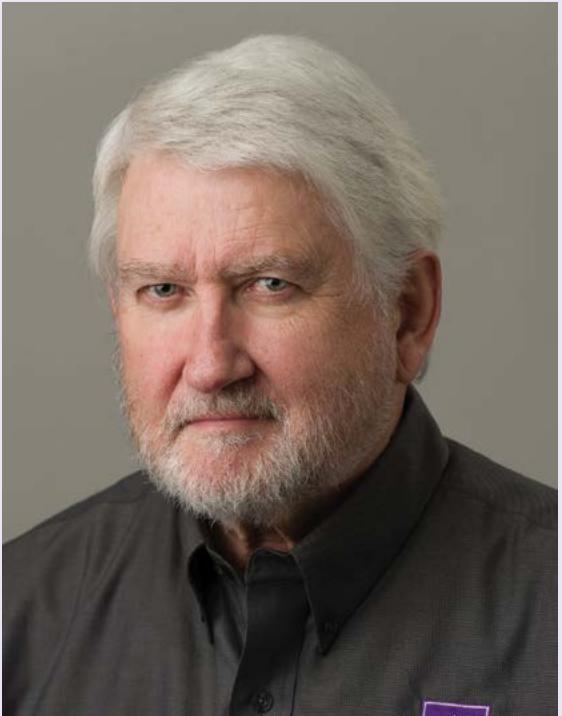

During this time, Pupu’A also studied at the Georg Solti Bel Canto Academy in Italy under Kanawa. He was awarded an encouragement award by the Giulio Gari Foundation vocal competition and multiple study grants from the Olga Forrai Foundation.

Upon graduation, Pupu’A embarked on his musical career, appearing across the United States and Internationally in both opera and concert. He made his professional opera debut with the San Francisco Opera in its 2011 world premier production of *Heart of a Soldier*.

He made his European debut in 2012 as Bacchus in *Ariadne auf Naxos* with Theater und Orchester Heidelberg in Germany. He later performed in Birmingham Opera’s acclaimed production of Tippett’s *The Ice Break*, as well as a world premier production of Giorgio Battistelli’s *CO2* at La Scala in Italy.

Pupu’A has also performed concerts in China for the Asia America Opera Association Festival as well as Strauss’ *Salome* for Hong Kong Opera, and played Bacchus in a concert version of *Ariadne auf Naxos* at the Danish Radio Concert Hall.

## HONORARY DEGREE RECIPIENT GENE SESSIONS

While instilling a passion for history in his students, Gene Sessions has become an integral part of Weber State University history himself.

Sessions attended Weber State in the 1960s and returned to teach in 1975. Countless students fondly recall Sessions as one of the first people they met at WSU, as he took it upon himself to help them find the correct classroom in the Social Science Building on their first day. For years, his intro to history class had to be moved to a larger lecture hall in the business building to accommodate student demand.

Sessions has become known for leading historical field trips and summer excursions for public education teachers. He was also a pioneer in embracing online teaching at WSU and has provided critical feedback and guidance as this teaching avenue has developed.

In 2014, he collaborated with microbiology professor Craig Oberg to create WSU's first MOOC (Massive Open Online Course), "Microbes Rule the World: The Effect of Disease on the History of the World." The course attracted over 700 students from nearly 50 countries and is now a licensure

course for Utah public education teachers, and its materials are available to teachers around the world for use in their classrooms.

In the early 1990s, he played a role in WSU's decision to expand its Davis County presence. As the first director of Weber State University Davis, he helped shape academic offerings, policies and practices even before ground broke on its current location in 2002.

Sessions has received many honors, including the John S. Hinckley Fellow Faculty Award (1999) and the Presidential Distinguished Professor (2006). Sessions has been a consultant for many historical documentaries and committees and is a former president of the Mountain Meadows Association. His numerous writings include *Mormon Thunder: A Documentary History of Jedediah Morgan Grant* (1982, 2008),  *Latter-day Patriots: Nine Mormon Families and Their Revolutionary War Heritage* (1975) and *Mormon Democrat: The Religious and Political Memoirs of James Henry Moyle* (1975, 1998).

A true Wildcat, Sessions attends WSU sports events and is known for offering students extra credit for wearing purple on Fridays. Colleagues even credit Sessions for coining the phrase Wildcats "bleed purple."

Sessions earned his doctorate at Florida State University in 1974. He and his wife Shantal have four children and seven grandsons.

## COLLEGE OF ARTS & HUMANITES

Congratulations, graduates. You have persevered through one of the most difficult years many of us have ever experienced. We are so proud of all that you have accomplished. Among the many challenges of this year, one bright spot was provided by Youth Poet Laureate Amanda Gorman who recited her stirring *The Hill We Climb* at the presidential inauguration. In this poem she recognized that “we are far from polished, far from pristine, but that / doesn’t mean we are striving to form a union that is perfect. / We are striving to forge our union with purpose.” Gorman also predicted that “we will rebuild, reconcile, and recover. / And every known nook of our nation and every corner called / our country, our people diverse and beautiful, will emerge / battered and beautiful.”

These words give me hope and remind me of the power of language and art to raise our spirits and bring us together. As graduates of the arts and humanities, you have so much to contribute to this work of rebuilding, reconciliation, and recovery, and also to the happy work of celebration. Your creativity and imagination, your critical thinking and communication skills, and your persistence and daring are the talents the world needs, now more than ever.

I hope you will see today not as an ending but a beginning. Today you might look back to your time at Weber and remember your classes, your teachers, your friends, and your activities. Tomorrow, try to look forward and think about how you will use what you have learned and how you will find your place in a changing landscape. Again, Amanda Gorman’s words give us a sense of how to move forward with purpose and courage.

When day comes, we step out of the shade of flame and unafraid.  
The new dawn balloons as we free it.  
For there is always light, if only we’re brave enough to see it.  
If only we’re brave enough to be it.

Congratulations again, graduates. Be well, stay engaged, and keep in touch.

Yours sincerely,

Dear Graduates,

“Dreams lie at the start, Reality lies in the middle, and Proof lies at the end.”

This statement by Bernie Boettcher (an accomplished runner) describes well what you, our students, experience between your admission to the **Goddard School** and today's graduation ceremony. Dreams of what you will learn, people you will meet, and how you will be transformed are common. Then classes start and the reality of the demands of higher education capture your full attention. Semesters passed and just as you were about to complete your education, a reality emerged in the form of COVID-19 that caused us all to adjust our personal and professional lives. After all the realities of business education and life outside of school, including this pandemic, are conquered, we will gather to celebrate your success. We will celebrate the proof that you can endure, you can learn, and you can balance all that life throws your way. We also get to stop calling you students and refer to you as graduates, our esteemed alumni.

Now, it is time for you to dream new dreams, face new realities, and, in the end, prove to yourself, once again, that you can reach new goals. From your Goddard School education, you take

with you tools, principles, models, and a network of relationships that will benefit you in your careers. Equally as important, you will take the knowledge you have gained about yourself that through your effort you can succeed in every professional circumstance. William James described what you've learned about your exceptional effort this way: “Beyond the very extreme of fatigue and distress, we may find amounts of ease and power we never dreamed ourselves to own; sources of strength never taxed at all because we never push through the obstruction” (in *Born to Run* by Christopher McDougall). You have clearly pushed through the realities to reach this key milestone in your life.

As you leave the Goddard School's programs, we hope you will be able to recall how your faculty and staff sought to provide you with a personal touch to serving you, to deliver a flexible, market-aligned education, and to instill in you a desire to be ethically and socially responsible and inclusive in your approach to working with people. Our vision is that the Goddard School's learning experiences will have helped you transform yourselves into trusted leaders who will grow your communities and positively impact the world.

We are proud of you. We believe in you. We want the best for you. Congratulations on reaching this milestone. Please don't hesitate to reach out to us with updates on your progress.

Dream a new dream and go for it!

JERRY & VICKIE MOYES  
**COLLEGE OF EDUCATION**

Dear Graduates,

As we gather during this time of commencement, we celebrate your tenacity in completing your program of study in preparation for your professional life or as a foundation for further educational opportunities. Today is YOUR day! We honor your accomplishments and the culmination of your work at the university and also look forward to an exciting future of opportunities and accomplishments.

The mission of the Moyes College of Education is to prepare professionals for excellence in serving individuals and communities. As you have participated in activities, internships, practica, and research throughout your studies, you have been in the process of *becoming* this professional. Oliver Wendell Holmes said, “One’s mind, once stretched by new ideas, never regains its original dimensions.” You have experienced this stretching as you studied, wrote papers, prepared for exams, taught lessons in schools, presented research, and worked with clients. This stretching may have been uncomfortable at times, as stretching often is, but the end result is a graduate who is ready to serve individuals and communities.

You have been supported in *becoming* by family, friends, mentors, and caring instructors. As you celebrate today, remember to offer thanks to those who have helped you in your path. With your graduation, you become a Weber State alumnus. You now have the opportunity to provide the same type of support to those students who come after you by serving as a mentor in your profession. Though your completion occurred at a tumultuous time, do not let it define your career.

As you choose your future directions, our hopes for your continued success go with you. Keep in touch with the Weber State community. We look forward to celebrating your achievements and successes with you. Congratulations graduates!

Sincerely,

**Dr. Kristin Hadley**, Dean

COLLEGE OF  
**ENGINEERING, APPLIED SCIENCE  
& TECHNOLOGY**

At the end of every semester we gather to wish you, our graduates, good luck and good bye. We do so this year a bit differently. You've had the great fortune of graduating in a year that people will talk about for generations. You have a bright future ahead of you. As you leave us I am going to ask of you three things:

**First – bring joy.**

Make the most of your time to bring joy and goodness to the world. Henry Ford said, "To do more for the world than the world does for you – that is success."

**Second – feel proud.**

As you know, Weber State University is a great place to get an education. When you first came to Weber, maybe you didn't think about it as anything special, however, maybe you did and good on you for being so knowledgeable. I've visited many schools around the world and this place IS special. Folks here don't boast very much, but Weber State truly is Great, Great, Great. Our former president, Ann Milner, used to say never forget that you bleed purple. She meant it to remind you that wherever you go to carry with you the pride of Weber State and what it has done for you. One of our graduates from Professional Sales said it

differently: go through life with a little purple chip on your shoulder. That includes schooling the rest of the world on pronouncing WeeBuuur (not Webber). Another former president, Chuck White, said WSU changes lives for good. He meant that not only is your life changed permanently and in a positive way, but that you are helping to bring good to the world.

**Third – give back.**

When Ann Milner said remember that you bleed purple, she also meant that you should remember that link to Weber State. Many people who graduated before you remembered that link. They did so by giving back to you in one way or another: creating scholarships that many of you have benefitted from, or hiring you, our graduates, or by helping us know the needs of our community so that we might do the best job that we can. Join those members of our purple community who helped us help you, as well as your friends and younger brothers and sisters who come after you.

So, three things: Bring joy. Feel proud. Give back. Always remember that you bleed purple because Weber State is making change for good just like you are today.

Congratulations, you have done well!

DR. EZEKIEL R. DUMKE

# COLLEGE OF HEALTH PROFESSIONS

As Dean of the Dr. Ezekiel R. Dumke College of Health Professions, it is with pride and pleasure, on behalf of the faculty, staff, and governing boards, to welcome you to our convocation for the 156th Weber State University Commencement!

We have assembled here today for the conferring of your degree from Weber State University and to celebrate your accomplishment. Given our current circumstances in the midst of a public health crises, I want you to truly take the time to reflect on your milestone. Your achievement today comes at no small feat. You have endured and persisted under an extraordinary situation, and you have chosen to continue that fighting spirit with resilience.

This convocation ceremony signifies the fulfillment of all your hard work and diligence, as well as the sacrifices and support of your loved ones and friends. It is our hope that as you reflect back upon your journey today, you will be able to take pride in knowing that you have achieved your educational goals and realized your impactful dreams.

We trust that as a healthcare professional, you will carry with you a desire for lifelong learning, professional development and a passion to be and remain on the cutting edge of your profession. The field you have chosen is constantly changing and advancing, and the faculty of the Dumke College of Health Professions would be pleased to be a part of any future endeavors in your continuing education. Know that your ability and desire to continually learn will ensure your sustainable success.

The Dumke College of Health Professions at Weber State University has a distinguished reputation throughout the nation, and the world, for the quality of its graduates. You are now among the elite and highly respected within the healthcare community. We expect you to continue with this tradition that was started over 70 years ago, and do your best in caring for the patients, clients, coworkers, and employers that you serve — ethically, skillfully, with clarity, proficiently, professionally, and, above all, compassionately. Your skills, service, knowledge, care and teamwork is more vital than ever given the current global needs of healthcare.

We hope you will stay in touch with us; we sincerely want to hear about your successes and experiences along your professional journey. Consider the words of Les Brown who said "Shoot for the moon. Even if you miss, you'll land among the stars."

Heartfelt congratulations to you and yours on this special day.

We wish you the very best now and always. Go Wildcats!

Very Sincerely,

**Dr. Yasmen "Yas" Simonian**, Dean

## DUMKE COLLEGE NAMESAKE

Dr. Ezekiel R. Dumke, one of the most prominent thyroid surgeons in the country, lived in Ogden from 1911 until his death in 1961.

He was one of the founding members of the Ogden Surgical Society and was the first chief of staff at both Dee Memorial Hospital and St. Benedict's Hospital. We are honored to have Dr. Dumke's name associated with our college.

## COLLEGE OF SCIENCE

Dear Graduates:

Today, we proudly celebrate your academic achievements in the College of Science at Weber State University. Celebrating your graduation has very special significance this year.

The faculty and staff in the College of Science want you to know how very proud we are of you and all that you have accomplished. Today we will be toasting those accomplishments and your perseverance in making it through your final degree requirements in the time of COVID-19.

This has been a long, winding, and sometimes bumpy road for many of you. You have devoted endless hours to your studies and have been tenacious through exam preparations, late night study sessions and early morning, last-minute cram sessions. Many of you have completed successful internships and achieved remarkable results working on a diversity of research projects with our exceptional College of Science faculty. We recognize and applaud that many of you were striving to balance ongoing school demands with work and a busy home life. And yet, here you are, a member of the class of 2021 and a graduate of the College of Science at Weber State University. Kudos to you! You did it!

You will leave here today as an alumni, a member of the Weber State University class of 2021, and an ambassador for the College of Science and Weber State University. We do not want you to wear the mantle of graduate of the College of Science at Weber State University lightly. Our global society is faced with many diverse and grand challenges. We are confident that we have equipped you with the knowledge, skills, integrity and compassion necessary to confront these challenges and to seek effective and innovative solutions that will sustain our global community into the future. We call on you as emerging leaders in the sciences and mathematics to seek to change the world through your individual actions and your chosen avenue of service. We know that you will strive to positively influence the lives of others and that this 2021 class will impact northern Utah and beyond in countless and perhaps unforeseen ways.

This is your commencement and that means that you are at a new beginning. A new journey full of adventure and promise awaits you. You are not alone. We are honored to be your cheerleaders as you move forward into your bright future.

Keep in touch with the Weber State community. We look forward to celebrating your achievements in the years to come! Congratulations and very best wishes to all of you as you continue to "lead the field" and pursue your dreams.

# CONVOCATION PROGRAM

## Welcome .....

Dr. Andrea Easter-Pilcher, Dean

## Honorees .....

Dr. Richard (Rick) L. Ford, Earth and Environmental Sciences  
 Dr. Karen Nakaoka, Microbiology  
 Dr. Mohammad Sondossi, Microbiology  
 Loyal Baker, Developmental Math  
 David Imig, Developmental Math  
 Mary Ellen Yonkee, Developmental Math

## Co-Valedictorian .....

Isaac Preston, Chemistry and Biochemistry

## Co-Valedictorian .....

Margaret Topalian, Zoology

## Presentation of Graduates .....

Dr. Andrea Easter-Pilcher, Dean

## Awarding of Diplomas

Associate Dean..... Dr. Barb Trask  
 Acting Associate Dean ..... Dr. Richard (Rick) L. Ford  
 Department of Botany & Plant Ecology ..... Dr. Sue Harley, Chair  
 Department of Chemistry and Biochemistry ..... Dr. H. Laine Berghout, Chair  
 Department of Earth and Environmental Sciences ..... Dr. Marek Matyjasik, Chair  
 Department of Mathematics ..... Dr. Sandra Fital-Akelbek, Chair  
 Department of Microbiology ..... Dr. Matthew Domek, Interim Chair  
 Department of Physics & Astronomy..... Dr. Colin Inglefield, Chair  
 Department of Zoology ..... Dr. Ron Meyers, Chair  
 Developmental Math..... Dr. Kathryn Van Wagoner, Director

## Concluding Remarks .....

Dr. Andrea Easter-Pilcher, Dean

College Graduation Committee  
 Dr. Michelle Paustenbaugh, Chair  
 Dr. George Kvernadze  
 Dr. Elizabeth Sandquist

## COLLEGE OF SOCIAL & BEHAVIORAL SCIENCES

Dear Graduate,

As Interim Dean of the College of Social & Behavioral Sciences (CSBS), I wanted to congratulate you on successfully completing your degree. Your time at Weber State University has been a tremendous journey and the CSBS faculty and staff are very proud of what you have accomplished. The phrases "well done" and "excellent work" do not describe or encompass all that you have been through. The fact that you finished your degree during a pandemic demonstrates your perseverance and fortitude to push through obstacles to obtain your goal.

Now that you are on the 'completion side' of your university experience, you enter the world with new knowledge and skills to exact positive change. We are living in unprecedented and challenging times. An advantage you have are the skills you developed while working on your degree in our college – problem solving, critical thinking, increased perception, ethical behavior – to name a few. Please use these new skills to: (1) help you navigate and thrive during these 'novel' times we are living in, and (2) create the type of world you want to live in. Don't let anyone discourage you from taking on difficult or seemingly

insurmountable tasks. I firmly believe in the power of one. I am proud of all you have accomplished and wish you the best. Please stay in touch and know that you will always have a home in the College of Social & Behavioral Sciences. Once a wildcat, always a wildcat.

Congratulations,

**Dr. Julie Rich**, Interim Dean

College of Social & Behavioral Sciences

#### AWARD AND DISTINCTION KEY

Asterisks after graduation candidates' names correspond to the awards, designations and distinctions listed below.

*	<b>Excellent Community Engagement</b>	Excellence in Community Engagement, established at Weber State University in 2008, recognizes graduates who promote service to the community while maintaining academic excellence. Graduates receive bachelor's degrees, have grade-point averages of 3.5 or higher and have contributed a minimum of 300 hours of service to a nonprofit community organization(s) during their college career.
**	<b>Golden Key</b>	The mission of Golden Key International Honour Society, founded in 1977 at Georgia State University in Atlanta, Georgia, is to build global communities of academic achievers by providing opportunities for individual growth through leadership, career development, networking and service. Membership is by invitation only to the top 15% of college juniors and seniors in all fields of study.
***	<b>Phi Kappa Phi</b>	Founded in 1897 at the University of Maine and established at Weber State in 1971, The Honor Society of Phi Kappa Phi is the nation's oldest and most selective all-discipline honor society. PKP is devoted to the encouragement and recognition of outstanding scholarship in all fields of academic endeavor. Seniors whose grade-point standing places them in the top 10% of their class (top 7.5 % for juniors) are invited to join the society.
****	<b>Veterans</b>	Veterans designation is in recognition of students who have served in the United States Armed Forces while on Active Duty, National Guard, or Reserve status.
*****	<b>Civitas</b>	Civitas is a community engaged scholar program at Weber State University that rewards students who have integrated civic engagement into their higher education experience. "Non Sibi, Sed Civitas" is a Latin phrase meaning "not for self, for community." Students who have achieved a distinguished level of civic engagement on their portfolio receive this distinction noted on their transcript; they also wear an honor cord and pin at graduation.

## PURPLE AND WHITE

*Official Weber State University Song*

Edited and Arranged by  
LYNEER C. SMITH

The musical score consists of eight staves of music in common time (indicated by '4') and a key signature of one flat (indicated by 'F'). The lyrics are as follows:

Proud-ly wav-ing o're ole We-ber An En-sign of truth and right The  
 flag I love, it waves a - bove. I love it with all my might. Oh  
 10 roy - al - ty lies in its pur - ple, And pur - i - ty in its white... I'll  
 hon - ored be if true to thee, And dare to do the right. Oh, I'll be  
 18 true to thee, O pur - ple and white! And I will stand by thee in  
 21 an - y fight; For truth and right will al-ways be Close by thee, O flag!  
 26 All thy chil - dren hon - or thee, Hon - or thine for - ev - er be.  
 30 Thou art mine for - ev - er, Pur - ple and white.

A performance instruction 'rit. a tempo' is placed above the 14th measure, and a 'Chorus' instruction is placed above the 18th measure.
