How to use the WSU Report Gallery Dashboards

The following information demonstrates key elements within each WSU dashboards that are published within the WSU Report Gallery app located within the eWeber portal. More videos and how-to-guides will be posted soon!
WSU Dashboards - Admissions & Enrollment Monitoring

Using the Admissions & Enrollment Monitoring dashboard:

This dashboard displays information about applicants to WSU, their enrollment status, and overall course enrollment tracking information. The dashboard is designed to be used primarily during open enrollment or open recruitment periods, and updates daily to reflect changes in counts.

Training Material:

- Admissions & Enrollment Monitoring Video (15 min)
- Budget Code Titles
- Engagement Attribute Descriptions
- Waitlist Event Score
- Link to the WSU Report Gallery
Using the **Course DFWI Grade Rates** dashboard:

This dashboard displays information about the percentage of students in all WSU classes that receive a grade lower than a C- over time. The count used in the calculation of passing grades excludes certain types of grades such as 'AU' (Audit) or 'NG' (Not Gradable), but most other grades are included.

**Data are included on the following course characteristics:**

- DFWI grade rates aggregated by course, and by course and ethnicity
- Filter options for groupings such as course number, subject code or college
- Further filtering by characteristics such as delivery method, general education classification, or course level

**Training Material:**

- **Introduction** PDF
- **Course DFWI Grade Rates** Video (4 min)
- Link to the WSU Report Gallery
WSU Dashboards - Dual Enrollment Information Dashboard

Using the Dual Enrollment Information dashboard:

This dashboard displays data related to concurrent enrollment, early college & NUAMES.

Data are included on the following items:

- Distinct headcount & total enrollments
- Matriculation rate, matriculation by course subject complete & matriculation by student degree
- Course enrollments

Training Material:

- Dual Enrollment Information Video (1 min)
- Link to the WSU Report Gallery
Using the **Enrollment Executive Summary** dashboard:

This dashboard summarizes WSU's official 3rd week census extracts for FTE/SCH enrollment, overall student headcount, and degree-seeking student counts for campus. This dashboard also includes WSU's Academic Year SCH/FTE instruction totals. This dashboard is optimized to provide institutional-level summaries on key metrics that are in sync with published USHE and IPEDS data.

**Data are included on the following items:**

- SCH & FTE (Student Credit Hours & Full-time Equivalent)
- Student headcounts & demographics
- Data by Term or Semester and Academic Year

**Training Material:**

- [Enrollment Executive Summary Video](#) (*12 min*)

Using the Starfish dashboard:

This dashboard displays metrics around Starfish’s usage and impact on campus specifically regarding tracking items, appointments, course outcomes, and persistence.

Data are included on the following items:

• Tracking Item and Appointment
• Referral, Flag, Kudo, or To Do
• Academic Performance & Persistence

Training Material:

○ Starfish Dashboard Video (9 min)
○ Link to the WSU Report Gallery
Using the Student Persistence & Success dashboard:

The Student Persistence & Success Dashboard provides users additional flexibility in reporting out student retention, persistence, graduation, and other measures of student success for WSU's historic data.

Data are included on the following items:

• Retention & Graduation Rates
• Term to Term Persistence
• Other Student Success Metrics

Training Material:

○ WSU Retention Definition & Terms Video (1 min)
○ WSU Persistence Definition & Terms Video (4 min)
○ Student Persistence & Success (Retention) Video (22 min)
○ Student Persistence & Success (Persistence) Video (1 min)
○ Link to the WSU Report Gallery
Using the Ten-Year Trends dashboard:

This report provides long term trends for enrollment and graduations for WSU Overall, Colleges and Departments. This dashboard has been optimized for the presentation of data for colleges and departments and is designed to be in sync with the official results reported to USHE and IPEDS.

Data are included on the following items:

• SCH & FTE (Student Credit Hours & Full-time Equivalent)
• Major trending & demographics
• Degrees earned
• Course detail trending

Training Material:

○ WSU Enrollment Definitions & Terms Video (20 min)
○ Ten Year Trends dashboard overview Video (1 min)
○ Ten Year Trends dashboard: Graduation tabs Video (6 min)
