

The MAIN verb of a sentence will NEVER do the following:

- Never be part of a **prepositional phrase**. The **subject** won't be in there either. 😊
- Never be in the **“to”** form. to run, to jump. To be or not to be a verb? **NOT!**
- Never end with an **–ing alone**. A **helping verb** must come **before** the **“ing.”** 🎉

List of Helping Verbs							
am	is	are		have	has	had	do
was	were	be		does	did	can	could
being	been			may	might	must	should
				will	would	ought to	used to
