Women in STEM (NOW):

Listen to seven stories from women in successful STEM careers, and learn from their experiences. Join us on Friday, September 8, 1:30-3:30pm in the Tracy Hall Science Center Atrium. A flyer is attached for full information.

Welcome Back Picnic (TODAY):

SGE and the Geology Club will be having a welcome back potluck picnic on Friday, Sept. 8, 6:00 PM, at Mount Ogden Park (3144 Taylor Ave, Ogden). There will be a raffle for prizes and great food! Meat will be provided, and a sign-up sheet is posted in the major's room. Please wow us with your cooking or shopping skills! If you have any questions, please contact Aaron Phipps, Orana Paullus, Judy Smith, or Teri Cisney. Hope to see you all there!

Stewart Library Outpost in THSC:

The COS Librarian, Miranda Kispert, has set up a Stewart Library Outpost in Tracy Hall to be available to students or others who have questions or would like a little help accessing or using library resources -- just like the service they would get at the Reference Desk in the library, only a little bit closer to home! Come see her from 12:15 to 2:15pm on Wednesdays in the main seating area on the second floor hallway. (Additional days are TBD)

Two Great Resources from Career Services:

Career Services has put together some great resources for students. We've attached two in particular that Geosciences students may find helpful. The first is "Science Pathways in Geosciences" which includes education requirements, specialty fields, and more. The second is "What Can I Do with a Degree in Geology? Come see us if you have any questions.
