

PARENTING: The Bullying Epidemic

Have you, your child, or family been affected by bullying? Are you a teacher or caregiver that deals with bullying directly? Bullying and aggression have become a common household topic and demanding problem in recent years. In this workshop, we will discuss three types of bullying (cyber, school and home). Participants will learn about root issues and prevention - from parenting attachment to understanding peer orientation. Come together to discuss ways to improve bullying in our schools and homes.

This workshop is available at **no cost**.
