Secure Computing Standard <http://www.weber.edu/iso/secure.html>

In addition to agreeing to abide by the Policies and Standards listed above I agree to the following conditions:

1. I understand that I do not own my computing account, but do have exclusive access to the account under normal circumstances. The University owns the network account and gives me the privilege of using it. The University reserves the right to access the account if an incident occurs that affects service or threatens the protection of the rights or property of the University. This access is solely for correcting service or a threat.
2. I understand that networked computing is a cooperative effort and will make every attempt to be prudent and considerate in my use of University computers and network resources.
3. I will not willfully destroy, damage, tamper, alter, steal, misappropriate or use without permission any system, program or file of the University or Utah Education Network (UEN).
4. I agree to not allow any other individual to access my account and to keep my password confidential. I agree to report the use of my account by others to the appropriate IT Specialist, Data Security Steward or Network Systems Administrator.
5. I understand that while Weber State University makes every attempt to preserve the integrity of my data and files stored on the system, if a conflict arises between keeping the system operational and maintaining the integrity of my data, keeping the system operational takes precedence. The University is not responsible for any loss of data, and I agree to hold the university harmless in such an event.
6. I agree to indemnify and hold harmless the University, its employees, and agents from any claim, demand, liability, cause of action, suit judgment or expense (including attorney fees), arising out of my breach of this agreement.
7. I understand and agree that each time I access the University's computing network that I am bound by the terms of this agreement, along with any changes or additions to this agreement, and the terms of all University policies in effect at the time I access the network or systems.
8. I understand that violations of this agreement may result in the revoking of all my computer and network access privileges.

I agree and acknowledge that any infractions will result in disciplinary action from the University and appropriate local, state and federal agencies. I understand that by using my network account I am agreeing to all of the above conditions.
