

- **A TV/Media Research Project/ Signature Assignment** is worth 100 points. We will flesh this out further in topics, but the goal is for the student to use his/her research skills on a TV related topic of their own choosing. The topic must be approved in advance by the instructor. The student is encouraged to be as creative, resourceful, and innovative as possible. The deliverable is a research paper (with a bibliography, but not footnotes). The length should be 6-10 pages double-spaced, but this is debatable depending on the project selected. It can also include any extra artifacts, charts, visuals, art, or anything else the student may concoct. The student will also present for 10-15 minutes the results of their research with members of the class. The class will then ask questions in a peer review process. The presentation to the class should also reflect the creativity with video, photos, audio, YouTube, or any other innovation. The **Presentation** is a separate score with 25 points.
