

**Job Announcement: *Instructor of Physics*
Full-Time One-Year Position for 2021-2022**

The Physics Department at Weber State University invites applications for a one-year full-time position at the level of instructor. The primary responsibility for the successful applicant will be teaching in our introductory laboratories and other courses based on the candidate's background and interests.

Minimum qualifications are a bachelor's degree in physics and relevant teaching experience. Preferred qualifications are a graduate degree in physics or a closely related field and experience with the physics introductory lab sequence.

Weber State University is a public undergraduate institution in Ogden, UT with an enrollment approaching 30,000 students. The Physics Department engages in work with students in diverse settings including interactive laboratories, weekly research seminars, public outreach, and classrooms of all kinds and sizes. Our faculty are dedicated to undergraduate education and we welcome new teaching perspectives and ideas.

For more information, see <http://weber.edu/physics> or email Dr. Colin Inglefield, cinglefield@weber.edu.

To apply, complete the online form at <https://jobs.weber.edu/postings/12414> and attach a cover letter, current CV, and the names and contact information for three professional references.

Applications received by February 1, 2021 will receive full consideration. The position will remain open until filled.
