Problem Statement

What problems or issues does the project attempt to solve or address?

Project Objective 1: [State the project objective here and divide the logic model by each objective. Objectives are concrete and viewed as targets under the general goal.]

Needs	Inputs	Activities	Outputs	Outcomes	Impact
What are the needs of this project?	*What human and financial resources will be used for this project?* *[Staff, Time, Money, Materials, Equipment, Partners]*	*What activities will be conducted to meet the needs or address the issues?* *[Conduct workshops, meetings; Deliver services; Provide training; Facilitate; Partner]*	*What will be produced or delivered or who will participate in activities?* *[Products created or resources developed; Serviced delivered; Participants reached]* *Measured with performance indicators*	*What changes will happen after an activity has been implemented?* *Measured with performance indicators*	*What long-term changes will occur?*

Project Objective 2: [Add rows as necessary to report on all project objectives.]

Needs	Inputs	Activities	Outputs	Outcomes	Impact

Assumptions

What factors need to occur, or which stakeholders or grantees need to be involved, for the project to be successful? How and why will proposed activities lead to proposed outputs, and how will outputs lead to outcomes?

External Factors

What factors that are not in the control of the project could affect expected activities, outputs and outcomes?
