

## Temperature Guidelines:

**WINTER Months (November-March)**

Recommended Temperature Range:

68°F - 72°F

**SUMMER Months (May-August)**

Recommended Temperature Range:

74°F - 76°F

### Energy Saving Tip:

Space heaters are a huge energy suck and are unsafe as well!

**Did you know that space heaters are actually not permitted on WSU campus because they are a fire hazard?**

Call Energy & Sustainability Office at **X6421** to turn in your unsafe space heater, and receive a WSU blanket and cozy toes to keep warm in the winter!
